DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females

IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually called

Female Complaints

Of these are Prolapsus Uteri, or Falling of the Womb, Fluor Albus, or Whites, Chronic Inflammation, and Ulceration of the Womb, Incidental Hemorrhage or Flooding, Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (cancer excepted) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhoea, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D.,
Baltimore, Md.

The Catholicon is doing good service here [illegible] patients that have tried the medicine have been benefited but one—and that is a nothing will help.

Truly Yours,
WM. LAIRD HAFFETT?, M. D.,
July 6th, 1854 New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: female weakness, such as Prolapsus Uteri, Fluor Albus and all irregular and painful menstruation, and diseases of irritation of the uterine organs.

D. Y. FOOTE, M. D.,
Syracuse, N. Y.

Those needing such a remedy should inquire for the medicine of this medicine, and by calling on [illegible] of the undersigned, can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

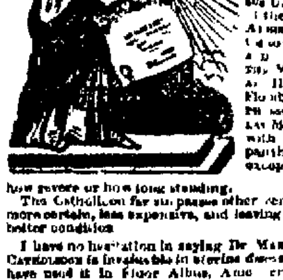
DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually called

Female Complaints.

Of these are Prolapsus Uteri, or Falling of the Womb, Fluor Albus, or Whites, Chronic Inflammation, and Ulceration of the Womb, Incidental Hemorrhage, or Flooding, Painful, Suppressed, and Irregular Menstruation, &c., with all their accompanying evils, (cancer excepted), no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhea, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the attention of the Faculty.
JOHN C ORRICK, M. D.,

The Catholicon is doing good service here with our patients that have tried the medicine, have been benefited but one—and that one is nothing will help.
Truly Yours,
WM LAIRD HAZLETT, M D.,
July 6th, 1854 New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, that of Female weakness, such as Prolapsus Uteri, Fluor Albus and all irregular and painful menstruation, and diseases of irritation of the womb.
D Y FOOTE, M D,
Syracuse N Y.

Those needing such a remedy should inquire of the merits of this medicine, and by sending a letter to the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

THE GOVERNOR'S VETO.—We publish this morning Gov. Barstow's Veto of the Prohibitory Liquor Law. It is unfortunate for his own sake that he did not specify the "Constitutional objections" and other reasons which might be rendered for withholding his assent to this bill, since those which he has given are trivial and insincere, and only tend to strengthen the previous belief that he was pledged to veto *any* Prohibitory Law.

The [illegible] notice of the Veto with the following remarks, to which we invite the special attention of the Temperance men in the Legislature:

"The Assembly, if the members are in earnest, will go forward and pass a thorough Prohibitory law and this we *have been assured on good authority* [illegible] would sign. We have our doubts whether the Legislature really want to pass such a law. There are too many aspirants for political honors therein, who are afraid of the foreign vote. The Assembly has the power to pass such a law, and the responsibility of a failure to pass a strong law will rest on the republicans. Let them go ahead and fulfil their pledges to temperance men."

By all means give the Governor a chance, which he seems to ask for, to sign "*a thorough Prohibitory Law.*" We hope the Legislature will not think of adjourning till they have done so.

LAKE SUPERIOR.—Our readers will find both interest and information in the series of articles on the Lake Superior Country, contributed for our columns by a gentleman who has been there and knows whereof he writes. We present the second number this morning.

The Saturnalia at the Capitol.

We call the attention of the sober, reflecting and self-respecting people of this State to the scene enacted in the Assembly Chamber on Saturday evening by a factious and reckless minority bent upon preventing legislation and compelling an adjournment, in order that they might celebrate the victory of Liquor! It was a fitting sequel to the Veto of the morning and furnishes a graphic illustration of the spirit which actuates too many of the opponents of a Prohibitory Liquor Law.

Abstract of Monday Morning's Proceedings.

Madison, March 26 1855.

IN SENATE.—Committee Bill made special order for to-morrow.

The Governor's vetoed bill authorizing Janesville Common Council to prohibit sale of liquor. The vote being put it gave 11 to 9—not two thirds.

Bills passed:
Relating to license moneys in Dane Co.
Prohibiting [illegible] land office from entering lands.
Appropriating $2 3 to J N Jones for postage.
Providing for county standards of weights and measures.
Providing for publication of notices ordered published by Judges of Courts.
Providing for protection of Swamp and overflowed lands.
Authorizing J. L. N. Thomas to build dam on Bee Creek.
Charter of Milwaukee Ladies Society.
" " Concert Hall Association.
" " [illegible] Academy.
Amending Janesville Charter (leaving out license section.)
Appropriating to Schoeffler & Wendt, L. Kel-[illegible]
Appropriating to officers of Senate.

The enacting clause of the Rock River Canal Bill was struck out only one in the negative.

ASSEMBLY.—Bills passed:
Providing for appraising damages where lands are ceded to the U. S.
Charter of Big Della Bridge Co.
Charter of German School, Second Ward, Milwaukee.
Charter of East and Fox River R. R.
Repealing sec. 12 chapter 28 Local laws of '54.
Attaching Columbia Co. to 9th Judicial Circuit.
A [illegible] a boom on Pensaukee river.
Authorizing supervisors of Beloit to borrow money.
Amending act amending charter of Geneva.
Vacating a street in Oshkosh.
Providing for certain expenses of Comptrollers office.
Concerning terms of Circuit Court in Winnebago, Fond du Lac and Manitowoc.
Enabling assignees of choses in action to maintain suit.
Appropriation to A. Greulich and K. Fleischer.

The Governor sent in a veto of bill appropriating to R. King & Co. for Supreme Court Reports.

A new Temperance Bill, introduced by Mr. Gary, was made the special order for this afternoon.

Adjourned.

FOURTH AND TENTH JUDICIAL CIRCUITS.—The Sheboygan *Times* announces that Mr. B. WILLIAMS of that city, declines the independent nomination for Circuit Judge. The *Times* intimates that Mr. SHAFTER may become a candidate for that office. Judge GOODRICH, appointed by Gov. Barstow, to fill Judge Howe's vacancy, is also in the field. The election comes off next Tuesday and the electors of the Circuit appear to be in a pleasant state of uncertainty as to whom they shall vote for. As the question now stands, the contest seems to be between Mr. FLINT, of Fond du Lac, and Mr. GOODRICH, of Sheboygan.

In the Tenth Circuit we learn from the Green Bay *Advocate* that Hon. D. AGRY and Mr. R. S. C[illegible] are candidates for the new Judgeship.

Since the above was in type, we learn that Mr. J. M. M. SHAFTER, of Sheboygan, in compliance with the request of numerous friends, has consented to be a candidate for Judge in the 4th Circuit. Success to him! He would make a Judge.

LAKE SHORE & MANITOWOC & MENASHA R. R.—The Manitowoc *Tribune* publishes the proceedings of the R. R. Convention in that village last week, says that it was well attended, and that a very lively interest was manifested in the objects of the meeting. The *Tribune* adds that a meeting of the Directors of the Manitowoc & Menasha R. R. Company was held in the evening and the President authorized to receive proposals for building the road.

THE HYBRID LIQUOR LAW.—The bill which passed, allowing the Germans to drink their favorite beverages while the other classes are forbidden to drink theirs, the Madison Journal says will be vetoed by the Governor. In that event the Legislature should go forward and pass a thorough Prohibitory Liquor Law—which it is understood the Governor will sign.—*Wisconsin.*

We think the "understanding" decidedly the other way, but certainly hope that the Legislature, before adjourning, will try the Governor with "a thorough Prohibitory Liquor Law."

SALE OF A RAILROAD.—We learn from the Janesville *Free Press* that the Rock River Valley Union Rail Road was sold at Auction in that city, on Saturday last, under a mortgage, for $800,000. The purchasers are Wm. B. Ogden, of Chicago, J. H. Hicks and C. C. Walbeams of N. Y., Agents for bondholders. The *Free Press* adds:

Wm. A. Butler ask it as a trustee, by his agent J. W. Hickock the London bondholders having appointed him in the place of Robt. J. Walker. Mr Ogden now gives us reasonable encouragement that the road will now be bona fide commenced. We feel encouraged that it will be so.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, March 24, '55.

IN SENATE, this morning:

Petitions:

By Mr. Giles, from citizens of Madison, asking for the passage of the Assembly bill in relation to shade trees in the village.

By Mr. Hadley, memorial of Milwaukee Common Council against bill changing grades in 5th Ward. Also, a petition on the same subject.

By Mr Sutherland, to vacate plat of Edgerton.

Resolution:

By Mr Giles, instructing the Judiciary Committee to report the Madison shade-trees bill. *Adopted.*

The Senate, at an early hour adjourned over to Monday.

(Senator Eldridge informs me that in my letter on the 22d, published this morning, I misrepresented his position, in stating that he declined to report from the Judiciary Committee the bill repealing the Lunatic Asylum Law. I was not present in Senate, and had my information from another, whose statement I probably misunderstood. Mr. Eldridge says that he was unwilling to report it before the Committee had had any meeting so that it could be considered, and desired time to prepare a report, and that the bill was reported as soon as the Committee had a meeting—that is the next morning.)

IN ASSEMBLY:

Petitions:

By Mr. Whirry, from citizens of Portage City against removal of county seat.

By Mr. Van Nostrand, relative to a State Road from Oshkosh to Stevens Pt.

By Mr. Rose, a memorial from Gen. Starks, State Prison Commissioner, asking that some means be provided whereby he can obtain funds to carry on the institution. Referred to Committee on Ways and Means.

(At this point, the Governor's Private Secretary brought in the Temperance Bill, with a veto Message.)

Resolutions:

By Mr. Harrington, that Mr. Vilas be granted unanimous leave to record his vote on the bill for an Investigating Committee. Amidst a hearty burst of laughter, the "gentleman from Dane" said that he did not desire to record his vote, &c., &c. He did not wish to vote for it, and he did not wish to vote against it.

By Mr. Judson, that the Judiciary Committee inquire after some means of compelling delinquent counties to pay up their taxes. Adopted.

Bills introduced:

By Mr Earnest, providing for sale of escheated lands.

By Mr. H. Grant, relating to county seat and buildings in Marquette Co.

Several Reports of Committees were received, and then the Executive Message was taken up.

The Veto states that "besides the constitutional objections," other objections prevent the bill from receiving the Executive signature, *to wit:* that the bill prohibits the *manufacture*, while it allows the *sale* of liquors, (this objection has no foundation in fact); that the bill is not a *sufficient stringent* bill, since it allows the use of native wine, beer, and cider (!); and also that the bill allows of the arrest of drunkards, and their confinement till they inform as to where they obtained the "critter," this being a thing dangerous to individual liberty.

Mr. Bennett, having paired off with Mr. Randall did not vote.

The question—Shall the bill pass, the objections of the Governor to the contrary notwithstanding?—was then put and the following was the vote;

AYES; Abbott, Adams, Allen, Bond, Cary Chase Cole, Colley, Davis, Field, Filer, Gary, Goodrich, Goodall, H Grant, W. Grant, Gunn, Herrington, Isham, Judson, Kirkpatrick, Lee, Love Martin, Merriam, Merrill, Mosher, Parker, Pratt, P. H. Smith, A Taylor, Townsend, Topliff Wakely, Warren, Welch, Whirry, Williston Sholes—39.

NOES; Barns, Blazier, Boyd, Cross, Delany D Wolf, Downs, Earnest, Ebbets, Falvey, Gibb, Griffin, Hull, Juneau, Lavis, Moscowitz O'Neil, Ribble, Rogan, Rose, Ruan, Schwefel, Sherman, B. Smith, W. R. Taylor, Thompson, Van Nostrand, Vilas, Vliet, White—30.

There *not* being two thirds in the affirmative, the bill fails. The absentees are 6 friends and 7 opponents of the bill.

Mr. Welch introduced a bill to repeal the present license law.

The Senate resolution to appoint a joint Committee to receive any proposition from Mr. Proudfit, was taken up. Mr. Van Nostrand thought that it ought to be acted upon at once, so that if the matter could be arranged amicably before the Legislature adjourns, it may be done, and the minds of the people relieved. Mr. A. Taylor was unwilling to propose any sort of compromise, and moved an indefinite postponement, which was lost, and the resolution was adopted.

The Senate had refused to concur in the amendment of the Assembly to the bill appropriating to E. Stangeland for printing Reports—The Assembly refused to recede, and a conference committee was appointed.

Mr. Rose had unanimous consent to introduce a bill to pay General Starks for certain money that he had advanced to the state.

Mr. Sherman enquired if it was in order to move a reconsideration of the vote on passing the Temperance Bill notwithstanding the Governor's objections.

Mr. Hull insisted that the vote taken was in fact the reconsideration, and the only one.

Mr. Gary asked leave to introduce a bill—a new Temperance Bill.

Mr. Hull objected, and the vote being taken was 39 to 28—not two thirds.

Mr Gary said that his desire was to introduce a bill which obviated the objections of the Governor. Members who objected might find themselves in difficulty in consequence, before the Session was over.

The Assembly then went into Committee of the whole. On rising and disposing of the report of the Committee, Mr. Ebbetts introduced a joint resolution to adjourn the Legislature at 12 M. on Thursday next. Mr. Gary objected. Mr. Parker moved to adjourn. Carried.

In the afternoon, immediately on meeting, Mr. P. H. Smith moved to adjourn. Mr. Rose urged the adjournment. Mr Welch hoped there would *not* be an adjournment, since several gentlemen from Milwaukee, who had been absent for several days, had just returned, and he supposed that they desired to stay and attend to business (!) The vote on adjournment was lost. Then Mr. Parker moved a call of the House. Mr. Hull said that he and some of his friends had business to do, and if they were kept here, there would be a "lively time." And there *was* a lively time, the minority, who were understood to be desirous to make merry over the result of the course of legislation on a great moral question, preventing the suspension of proceedings under the call for some seven hours. It was vastly amusing to see members of the minority, who were responsible for thus keeping the Assembly a whole afternoon and evening from transacting business, getting up occasionally and urging an adjournment so that members might "cool down."—There were a good many good hits made, however in the way of motions, one of which was in quoting Ex-Mayor Kilbourn, a little after 4 P. M. to "*let her go,*" in the way of an adjournment. Another motion to adjourn at about 5 P. M., was met by Mr. Parker with the expression of the hope that there was "backbone" enough in the majority to "keep some men here until they were *sound.*"

Mr. Hull said there was backbone enough on the other side to compel an adjournment, or prevent any legislation.

This thing went on till —— well! thus far I had written at 6 P. M., at which time I supposed that the affair would be over soon, but I did not fully appreciate the merits of the case. At half-past 7 P. M., I renew my notes, not by any means intending to report, but to *sketch* proceedings. The clerk is calling the roll on a motion to suspend proceedings under the call, being about the fortieth motion of the kind, motions to adjourn innumerable being voted down. The minority refuse to vote to suspend proceedings so that the majority cannot get over 34 to 36 votes for it while the rules require a majority of all the members elect. The majority do not feel disposed to let the minority go off chuckling over a victory, and so they refuse to vote to adjourn. The gallery is crowded with people looking down at the strange scene below, some of the spectators having come up wondering where are the friends who were to come and help them celebrate, around the bonfires heaped up near the corners of the streets.

There is a strong smell of crackers, cheese, dried beef, &c., &c., the "&c" meaning something being poured from bottles, not looking like water, and—I verily believe—not being water at all. "Pop," "Pop," is the constant sound from the corner to my right, and "clink," "clink" go the glasses, and "champ," "champ" go the numerous jaws all over the Hall.

No suspension of proceedings, No adjournment.

7½ P. M. Mr Stevens gives notice that he is about to move another adjournment, and that if it does not pass, he will go at any rate. Two or three members rebuke the threat, and the Assembly in good humor, votes, 15 to 44, *not* to adjourn, and Mr. Stevens in as good humor, reconsiders his determination to leave.

8 P. M. Motion to adjourn lost. Mr. Hull, as many others had done, rises to make a personal explanation, and informs the listening crowd that there is in reality no question before the Assembly but that all this long afternoon has been occupied under a call of the House.

Mr. Martin moves a recess for an hour; lost, 10 to 50.

Mr. Parker "explains" He had come here this afternoon to do the business of the Legislature, and when he found that members of the minority were determined to adjourn the House, he moved a call, and he was ready to stand by his motion.

Mr. Gary "explains" He wishes the people to understand all this. He had several times, in the afternoon, voted to adjourn, as he did not care on a mere punctilio, to keep the House here But as things had now come to a pass where the majority or the minority must yield, he was ready now and hereafter to stand by his Republican friends throughout. It will be remembered that in the morning, he had desired to introduce a new Temperance Bill, but it had been refused. And it would be remembered that during the afternoon, Mr. Hull had intimated that the minority would not yield unless there should be a pledge that no "trap should be sprung upon them," in other words, that no such bill should be introduced. This was the same as saying that no other business shall be done during the session, and he was not disposed to submit.

Mr. Vilas rose to "explain," but there was a yell outside, and a flashing of light, and a rush of members to the windows, and a crowd of jubilant Anti-Maine Law men marched by. The Speaker's hammer fell rapidly, and by and by the excitement partially subsided, and Mr. Vilas proceeded to urge, in a long speech that the majority was factious, and that all that was necessary to end the trouble was that the majority should yield, and agree to adjourn. They would not do this, but they insisted that the minority should come under the yoke. There was a bare quorum present at the call of the House.

Mr. Parker showed that there were 52 present at the first call, and several came in soon afterwards.

Mr. Gary reminded members that very early in the afternoon Mr. Hull had openly made the threat that the House should adjourn, or else should not legislate. (Mr. Hull—"I acknowledge it") Mr. Gary further said that by taking advantage of the rule, some 20 members of the minority may keep the Assembly from doing business for the rest of the session.

Mr. Hull "explained." The gist of it was that the majority were responsible, because they made the rules. He further said that, as the majority here was so strong that it could carry a Temperance Bill through, and he was afraid that they *would* carry it through, and so "he would *not* vote to suspend the rules, if he sat here till the bells tolled for the worship of the Lord God to-morrow." Probably at sunrise to morrow the majority would find the minority here, ready to vote.

10 minutes to 9 P. M.—Mr. Thompson rises in considerable agitation, and hopes that nothing which has occurred will injure his Sauk bridge. He moved "a recess of 32½ minutes till the Shanghais go to roost."

Mr. Martin "explained" He said that he had been called from his room by the Sergeant-at-Arms, and on entering, found that there were two parties here, one trying to do business, the other trying to prevent business. He could not understand the propriety of continuing this scene longer, a scene which, in his long legislative experience, he had never witnessed before. Fourteen years ago, upon this very floor, he had been present, when an excitement rose which could not be quelled without bloodshed, and blood was shed, and a member was shot upon the floor. He hoped that this matter would end here, and that members would continue to regard each other as friends. He moved to adjourn, but withdrew the motion, at the request of

Mr. Davis, who said that, at his time of life, men do not enter into boy's play. He had acted upon a principle. He had been sent here to do business. It had been intimated by the minority that they would compel the majority to do no business. He thought that the majority ought to rule, and therefore had declined to yield. He would, however, yield at the appeal of Mr. Martin. But, in all probability this scene would be repeated on Monday morning, and he wished the people to know who was responsible for it.

Mr. Sherman said that he was brought up a democrat, and to believe that majorities should rule, and believed so still, and he should vote on that principle if he sat here till the end of the session.

The vote was then taken, and resulted as follows:

Ayes; Barns, Blaizer, Bond, Boyd, Cross, *Davis*, Downs, EARNEST, Ebbetts, Falvey, *Gary*, Gibb, Griffin, Hull, Juneau, Lavis, *Lee*, MARTIN, *Merrill*, O'Neill, Ribble, Rose, Ruan, Schwefel, B. Smith, P. H. Smith, Stevens, W R Taylor, THOMPSON, Van Nostrand, Vilas, *Wakely*, White—33.

Noes; Adams, Allen, Bennett, Cole, Colley, DALANY, Field, Filer, H Grant, Gunn, Harrington, Hollenbeck, Isham, Judson, Kirkpatrick, Love, Merriam, Parker, Pratt, Sherman, A. Taylor, Townsend, Topliff, Warren, Welch, Williston, Sholes—27.

Mr. W. Grant was excused from voting. So enough of the Republican members yielded to give the minority their hard-earned victory and the Assembly at 9¼ P. M. adjourned. Immediately there went up from the gallery a storm of cat-calls, crowings, and other hideous yellings, and the minority went off to "celebrate," remarking as they went: "Tuckered you out! eh!" Well! it is over, and I am through. The reader can make his own comments. It has been by far the most disgraceful scene that I have witnessed, in five sessions,

COALPIT EXPLOSION.

The Particulars of the Explosion at the Midlothian Coal Pits in Virginia.

Baltimore, March, 21.

A dispatch from Richmond gives us the full details of the explosion at the Midlothian Coal Pits in Chesterfield. Thirty-four persons were instantly killed, including twenty-eight negroes and six white men, and twelve negroes and five white persons were so badly burned that but three or four of them can possibly recover.

The pits were considered perfectly safe and free from foul air, but in making a blast an old shaft, sinking, accidentally crashed, from which it poured forth a volume of gas that became ignited.

The explosion caused the earth for miles around to wave and rock like a twig in the wind. One hundred white miners were fortunately out of the pit at the time. Every effort was made to rescue those that were alive. Dead men were found with the flesh charred to the bones, holding shovels, pick and drills in their hands. The flesh on those still alive is burned to the bones, as if it been wasted. The pits are seven hundred and seventy feet deep.

Abstract of the Report of the State Superintendent of Instruction.

Mr. Wright's second Report has at length made its appearance, in the 10th week of the session the delay not being the fault of the Superintendent, but of the State Printer. It contains a great deal of very interesting information, and we proceed to make as full an abstract of it as we can find space for.

The law organizing the free school system of this State has been in operation nearly 6 years the first apportionment of funds having been made in 1850.

The Superintendent in the first few pages of his Report, points out many difficulties which arise in the Administration of the law, though he thinks that the difficulties are in many cases imaginary, and made by men who love to "keep neighborhood in a broil by picking flaws,"—and he is, doubtless, right. He has forwarded to all the districts the newly compiled school laws, so that there is less danger of trouble hereafter.

The sum apportioned to the schools from the Fund last year was $99,749,52, and 405 towns and cities out of the 421 which reported, received their share: 11 towns did not report, and 5 towns sent defective reports.

The amount apportioned in 1850, was $588 06; 1851, $46 889.96, 1852, $53,703,84; 1853, $5[illegible] 695,75; 1854, $99 749 52. The amount which each town levies annually by tax for schools must be equal to one-half of the sum received by the fund the previous year, and in many towns it is much more than this.

The Superintendent complains of the defective character of many of the reports sent in by school district officers, and ascribes the fault, in a great measure to the neglect of teachers to keep a proper register. Blank forms for the purpose will be furnished this year.

There are 50 organized counties in the State, and from all except Chippewa, Clark, Douglas, and Trempeleau, returns have been received, La Pointe also makes no reports. Five other counties, unorganized, have made no returns; all of the delinquent counties being new.

Number of districts, 2164; number of parts of districts 1062.

The Superintendent rejoices in the decrease of districts in the larger towns, as showing that they are so consolidating as to be able to provide better accommodations.

Whole number of children between the ages of 4 and 20, 155,125, being an increase of 16,467 over 1853, and the increase of attendance on the schools is 6332.

The per centage of children attending school out of the whole number, increased annually for three years, and since 1851, it has been about 70 per ct., besides those attending private schools.

The average length of time in which school was taught the past year was 5¼ months, Kenosha Co. having the highest average 7¾ months. Average time taught by males, 3 2 5 months, by females, 3½ months.

Average wages from year to year, and total;

Years	To Males	To Females	Total
1849	$15,22	$6,92	$12,788,27
1850	17,14	9,92	59,741 59
1851	17,15	9 07	96,636 06
1852	17,34	8 50	105,082,18
1853	18,24	9,50	113 788 18
1854	21,10	10,87	163,485,64

Total amount expended in 1854;

Teachers' wages	$163,485 64
School Houses	55 309,38
Libraries	2 040,00
Other purposes	21,281,52
	$242,116,54

Being an increase of $76,982,37 over the previous year.

Number of School houses in the State; Brick, 75, Stone 79, Frame 1952, Log 933—total 2139, valued at $347,542,55.

District Libraries, 830, containing 14,027 volumes.

Present Capital of School Fund, $1,670,258,77 invested at 7 per cent.

The probable amount to be apportioned this year is $144 412 03, or about 93 cts. for each person between 4 and 20 years of age.

The Superintendent dwells at length upon the necessity of a better remuneration for teachers, and a better system of constructing school-houses, the Report furnishing valuable plans and suggestions on the latter subject. Valuable advice is also given to teachers for the more successful prosecution of their duties. Parents, too, are urged to perform *their* duties, without which the labors of the teacher are nearly useless. Union Schools are recommended, wherever practicable.

The Superintendent urges the establishment of the Normal Department of the University, to aid in furnishing good teachers for the state, and as the fund of the University is not at present sufficient, he recommends an appropriation from the school fund income for the purpose.

From the full and interesting tables which accompany the Report, we compile the accompanying table, leaving out many of the less important items. Several notes in regard to important points will be found below the table.

Lake Superior in Numbers---No 2.

BY G. W. F.

Messrs. Editors:

In the first number of these articles, I proposed, after a few remarks upon the neglect of the Wisconsin press, to offer to your readers a feeble description of the topography, geography, and practical resources of that portion of Lake Superior country lying within the boundaries of this State, or which (lying in other States or Territories) nature has made tributary to Wisconsin. Commencing then at the western boundary line of the State, at the head of the Lake I shall not attempt to carry the reader back more than two years, although the earlier history of that country contains many incidents and transactions of more than ordinary interest to the general reader. But as the outline of these sketches embraces only Lake Superior, as it is, I shall not revert to what it was.

Douglas County, as set off from the county of La Pointe by the Legislature of this State in 1854, is bounded on the North by Lake Superior, on the East by the Brule or Burnt Wood River, South by the Northern line of Polk county, and West by the State line and the St. Louis River, which, however, is also the State boundary. Douglas county therefore embraces twenty-one miles of Lake coast, and twenty miles navigable river boundary. The general course of the St. Louis from the Falls is northerly for fourteen miles, then it turns abruptly to the south-east till it reaches the Lake. The mouth of the river is between two long, low, sandy points, and is 1280 feet wide, but immediately within the entrance the river expands to very nearly a mile in width, and continues this width for six miles, when it is again contracted by two narrow sandy points to half a mile, and above again immediately expands to a breadth of nearly or quite two miles, and again three miles further up it is narrowed to less than half a mile, and continues thus alternately contracted by jutting points and expanded by retreating bays or bayous, for seven miles. After twelve miles, the river is filled with islands until we reach the Falls, where we find it narrowed down to a little less than one-fourth of a mile, which width after leaving the Falls it retains for fifty miles, and it is larger than the Milwaukee river one hundred and twenty miles from its mouth. The St. Louis is navigable for any class of boats or vessels to the Falls, but these present the same impassable barrier to navigation which is found on all the rivers of Lake Superior. These Falls are never (in the St. Louis) abrupt descents for more than a few feet, but rather a succession of cascades and rapids, rushing and foaming along through a narrow gorge in the rock a distance of nine miles. A few canoes have made the descent in very high water, but it cannot be done at the usual stages. The Wisconsin shore of the St. Louis from the falls to the mouth is low, and deeply cut by numerous bayous until within six miles of the mouth. It is densely covered with the prevailing timber which characterizes the entire Lake coast, viz: Spruce, Tamarack, Balsam, a few White and Red or Norway Pines, and the Silver Birch. The soil is a light compost of decayed vegetable matter, rarely more than a few inches thick, overlying a very compact red clay, which varies in thickness from eight to sixty or one hundred feet, indicating what practical farmers call a "cold soil." Farther back, and at distances varying from eight to twelve miles, but mostly parallel to the Lake Shore, the Trap rock has been forced up in a continuous chain, to a height averaging about three hundred feet, (in this State) which extends, with a short gap of six miles, through the entire state, and in fact, the whole length of the Lake, its general course being east and west. This forms the Mineral Range, or as it is technically called 'The Range'. The soil on this Range, is, in Douglas county, similar to that of the shore, except that the surface soil is deeper and the clay is not so deep, seldom exceeding three feet before we reach the rock. The same timber is found here that we find on the shore but in different proportions, and with additional varieties. The Pines and Birches are more numerous, while the Maple, Iron-wood, Red Oak, Linden, Black Ash, Black and Yellow Birch, and White Cedar are found here in no inconsiderable quantities, and all the trees have a larger growth than those nearer the Lake Shore. I shall have occasion to revert to the Range more particularly hereafter, as one of the important sources of the wealth of Lake Superior; we will return now to the mouth of the St. Louis.

The mouth of the St. Louis is essentially the head of Lake Superior, and practically as yet the head of navigation, there being nothing at present to call boats to Fond du Lac (as the little Indian village at the foot of the Falls is called) except an occasional pleasure excursion. (That the water power there, will one day be improved, I have no doubt, but we are speaking of the present.) The Bay of Superior (the first six miles of the St. Louis is so called) is capable of accommodating all the craft of all the Lakes at once, and is easily accessible, from the width of its entrance. The channel proper in the entrance is 600 feet wide and eleven feet deep on the bar, increasing to 25 feet within, and also expanding to four-fifths of a mile wide inside. The Bay of Superior proper is more than eight miles long, being lengthened by a bayou at each end, but it is only navigable for vessels in that portion of it which I call the River. The Left Hand River empties into the Bay of Superior, about one hundred rods from the mouth of the St. Louis and lies wholly within this State. This river contains sufficient depth of water to float any vessel for eight miles, and its banks are so abrupt that a steamer can lay her guards right on the bank, but it is too narrow for turning, or even for winding. Its course is nearly parallel with that of the St. Louis.

Between these two rivers and along the shore of the Bay of Superior, the bank rises somewhat abruptly to a height of about forty feet, and retains nearly that elevation for several miles back, and on this elevation is situated the village of Superior. As this little village has attracted some attention from nearly all the Northern and Middle States, and is known, and its prospects canvassed in nearly every city in the Union, it may not be improper to mention in these sketches, some of the causes which are calculated to give it importance, and also to give some account of its first settlement and present condition.

For many years sagacious financiers have looked with some anxiety to a time when Lake Superior should be made to perform her part in the carrying trade of nations, and when by her means the Mississippi could be reached at some point higher than the mouth of the noble Ohio, without a long land route. The opening of the Welland Canal was an event which was conducive to increased prosperity in the cities which lie scattered along the shores of the lower chain of lakes, and was also an obstacle removed which had hitherto prevented a direct water communication with the Atlantic seaboard. Previous to this time all produce for any point west of Buffalo must be shipped and re-shipped at least three times, and for any point (from the Atlantic) on the Mississippi, it must be shipped five times. Therefore these far-sighted managers did not rest until they had, almost at the same moment, secured the privilege of using the Welland Canal, by the Reciprocity Treaty, and also a grant of valuable lands for the construction of a Ship Canal around the Saut. Then, and not till then, the Surveyor-General issued his orders for a survey of the lands in Wisconsin, which embrace the mouth of the St. Louis river, and also for a survey of two townships on the range in that vicinity. It has been supposed by the masses of the people, that Lake Superior could only be navigated with safety, during about five months of the year. But it has long been known by those who were interested in knowing, that the Lake itself opens nearly as early, and remains open longer, than Lake Michigan. For several years the crazy barques which have been hauled over into Lake Superior, have been kept running far into December, and generally have commenced running in April. Place good Steamers or Propellers upon her waters and they would commence their trips by the first of April and run till after the New Year. This year there was no ice in sight from the mouth of the St. Louis, on the twentieth of January, and the weather for a month previous had been peculiarly mild and favorable for navigation.

Taking this into consideration, together with the fact, that Superior, in a direct line east, is only seventy miles distant from the Mississippi, and in an air line only one hundred and thirty eight miles from St. Paul, and in either direction, a practicable railroad route, and one will conscientiously predict for the now little village of Superior, a future that may rival that of Milwaukee, or even that of Chicago. Further, when we consider that the railroad route from the Mississippi to Puget Sound, which was surveyed by Gov. Stevens in 1853, is only 1909 miles in length, and consequently, that the Pacific waters are less than 2000 miles from Superior; that this route is seven thousand feet lower in its highest point, than a corresponding point in any other survey, and is supplied along the entire course with the materials necessary in its construction, and for its maintenance; and that in no single place is there a natural obstruction equal to some which were found on the Chicago and Galena road; we are constrained to pause and reflect ere we assert that Superior is destined to flash up and die away, consumed by some larger town either on the Mississippi, or east of Lake Superior.

The Range too, presents an inexhaustible fountain of wealth, in those rich veins of native copper, which have given rise to so many almost fabulous tales, of the natural opulence of Lake Superior. This source of wealth will constantly be increasing, instead of diminishing; for the upper half of the Wisconsin shore, and the entire Minnesota shore, from the St. Louis to Pigeon River, must be dependent upon Superior for a shipping point or for a market, since there is no harbor on the South shore, nearer than La Pointe, and none on the North shore at all. This range which I have before described as running the whole length of the south shore of the Lake, extends also along the North shore from the head to the foot of the Lake, rising grandly from the very water's edge, frequently to a height of 1500 feet, and presenting to the eye, a scene upon which poets love to linger. And it is also richly injected with a metal, more profitable than gold, because not so much diffused, and because more certain of being found.

Special Message.

Veto of the Bill for the Suppression of Intemperance.

EXECUTIVE DEPARTMENT,
MADISON, March 24th, 1855.

To the Assembly:—The Bill entitled "an act for the suppression of intemperance in the State of Wisconsin," is herewith returned to the Assembly, in which it originated, without the Executive approval.

Aside from the Constitutional objections to this bill, there are several provisions contained in it which, in my judgement, are of such a character as to compel my dissent.

The first section of the bill reads as follows:

Section 1. "No person shall be allowed at any time to sell or to manufacture for the purpose of selling by himself or by another person directly or indirectly, any spirituous or intoxicating liquor or liquors, of which any part or ingredients consists of spirituous or intoxicating liquors except as hereinafter provided, and the giving away of intoxicating liquors or other shifts or device to evade the provisions of this act shall be deemed and held to be unlawful selling within the true extent and meaning of the prohibitions contained in this section."

This section prohibits the sale and manufacture of intoxicating liquors except as thereinafter provided. The right to sell for mechanical, chemical and medicinal purposes, is subsequently provided for by authorizing the appointment of one or more agents for that purpose, in each of the several towns, cities and villages throughout the State, but there is no section or clause "providing" for or allowing the manufacture of any liquors for these purposes. If it is proper thus to provide for the sale of spirituous liquors, it is equally proper and necessary that this manufacture should be allowed and even encouraged under like restrictions. By thus providing for the sale of intoxicating liquors, the propriety and necessity of their use are admitted, and being so admitted I can see no good reason why their manufacture should be prohibited. Large quantities of spirituous liquors are annually used in the State for the purposes above named, and I cannot see any propriety in depriving our citizens of the right to manufacture such liquors for such purposes, or in compelling them to go abroad for what they can with profit and advantage manufacture at home.

Section two of this bill provides expressly for the sale, and indirectly for the manufacture of beer, wine and cider, for their sales in limited quantities, and by agents to be appointed expressly for such purpose, (which agents are not allowed to sell other intoxicating liquors;) and in quantities and under restrictions, as follows:

"Section 2. Any person who shall first obtain a permit therefor from the Supervisors of any town, the Trustees of any village, or the Common Council of any city, in this State, and who does not hold at the same time a permit to sell pure and unadulterated liquors; or, as provided in Section 3 of this act, may sell within the limits of the town, village or city, where such first named permit is granted, pure wine, beer and cider, manufactured within this State, under the following restrictions, and not otherwise;

Beer shall not be sold in any quantity less than eight gallons, and wine and cider shall not be sold otherwise than in sealed bottles or packages, and in all cases the entire amount sold shall be taken away by the purchaser in the unbroken package or packages, as purchased; and such wine, beer and cider, shall not be sold in any quantity or quantities, to be drank upon or about the building or premises where sold, or to be drank in any adjoining room, building or premises, or in any place of public resort, connected with said building; provided, that in any case arising under any of the provisions of this act, the presumption of law shall be, that any wine, beer or cider, in question, in the case, was manufactured out of the State, and it shall be incumbent upon the defendant or defendants, in any suit where the selling of intoxicating liquors by him or them is shown, to prove that the article sold was wine, and that the same was pure and manufactured within this State; or beer without admixture of distilled or spirituous liquor, and manufactured within this State; or cider, and that the same was pure and manufactured within this State; and in case of seizure of any wine, beer and cider, as provided in Section ten of this act, the owner or owners, in order to show that same are legally held under the provisions of this section, shall be required to prove that each is pure of its kind and manufactured within this State.

This bill is entitled "an act for the suppression of intemperance," and while it prohibits the sale of certain kinds of intoxicating liquors, except for mechanical, chemical and medicinal purposes, and the manufacture thereof altogether, it expressly provides for and permits the manufacture and sale of certain other kinds of intoxicating liquors, used almost exclusively as a beverage, the free use of which is calculated to produce and continue the evil sought to be prevented, and in this particular I think it is inconsistent with its purposes and unwise in its discrimination.

If we are to try the experiment of averting the evils of intemperance by prohibitory laws, the sale and use of all intoxicating liquors as a beverage of whatever name or nature should be proscribed, for it will be in vain to think of doing so by inhibiting the use of one kind of intoxicating drink, and allowing either the restricted or unrestricted use of others. This must be regarded as an unwise and unwarrantable compromise between principle and expediency, and one wanting in evidence to convince me that it is desired by those whom it may have been intended to favor, and rendering the measure liable to the suspicion of being the means for attaining other ends than those expressed.

The 14th section of the bill contains a provision for arrest and confinement of any individual ascertained to be intoxicated and for his subsequent imprisonment, should he refuse to "disclose the place, and the person of whom the liquor so producing intoxication was obtained, and all the circumstances attending it," the imprisonment to continue until he shall make such disclosure or until the Justice before whom he has been taken for examination, shall see fit to discharge him. I consider the discretion thus given to the magistrate dangerous to individual liberty, and entirely incompatible with the spirit of our system of government. Opportunity would be afforded for a tyrannical abuse of power, since the exercise of this discretion would, in many instances, be regulated by the caprice, the private animosity, or other unjustifiable motive of the officer on whom it is, by this provision, conferred. Should the prisoner persist in his refusal, and the Justice remain inflexible, the imprisonment may continue for an indefinite period.

Deploring as deeply as the most fervent advocates of a Prohibitory Liquor Law the evils of Intemperance, I must still pay a due regard to the obligations imposed upon me, and withhold my sanction from enactments which, in my deliberate judgment, tend to oppression or injustice; and for the reasons above stated, and others which might be rendered, I feel bound to return the bill in question to the Assembly, without my approval.

WM. A. BARSTOW.

☞ If the statements we see in many of the papers and the names of many highly respectable physicians and citizens of high standing attached to certificates of the good effects of a medicine can be relied on, it seems to us the height of incredulity to doubt for a moment the intrinsic virtues of the "MEXICAN MUSTANG LINIMENT." The fact is admitted by all, that it is the best external remedy ever discovered by the medical faculty; and that it is a certain cure for all kinds of Cutaneous diseases, both on man and beast. We cordially recommend it to any of our readers who are troubled with any of the diseases for which it is recommended.

HOLLOWAY'S OINTMENT.—A Miraculous Cure of Ulcerous Sores.—Augustus Cook, a compositor, in the office of one of the papers, published in Philadelphia, was afflicted for a long time with scrofulous sores on his arms and legs, his case in the end became so desperate, that it appeared evident he must forsake his employment. A friend, however, persuaded him to use Holloway's Ointment, and to take the Pills according to the printed directions, which he did. After a short time, he found himself considerably better and by persevering with these remedies, in a few weeks he was completely cured, and is now able to work with renewed vigor.

RUTH HALL:

A DOMESTIC TALE OF THE PRESENT TIME.
BY FANNY FERN.
400 pp., 12mo. Cloth. Price, $1,25.

IT HAS BEEN RESERVED TO THIS DISTINGUISHED authoress to achieve what may, under the circumstances, be regarded as the most brilliant success ever obtained by an American writer of fiction. "RUTH HALL," her first continuous story, though deriving no interest or popularity from connection with any of those vexed questions which agitate the public mind, has, in the two months since its first appearance, reached a greatly larger sale than any other American work of fiction whatever within the same period. This extraordinary fact is, of itself, abundant evidence of the absorbing interest and graphic power of this remarkable work. We have in our possession several hundred reviews of "RUTH HALL," which have already appeared in the principal newspapers and periodicals. Nearly all of these pronounce it emphatically a work of genius, many predicting for it the largest sale of any American book, and devoting whole columns to its eulogism, while we have seen but a very few (not twelve in all) which deny its singular fascination

"RUTH HALL" is for sale by Booksellers generally.

COMMERCIAL.

REVIEW OF THE MARKETS, FOR THE WEEK ENDING MARCH 27th.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, March 27, 1855.

RECEIVED BY M. & M. RAILROAD, MARCH 26TH.—3000 bus wheat, 430 do corn, 146 do oats, 87 do barley, 175 bbls flour, 36 do highwines, 15 do alcohol, 6 hogs.

BY M. & W. RAILROAD.—1102 bus wheat, 77 do rye, 71 do barley, 408 bbls flour.

RECEIVED BY RAILROAD DURING THE WEEK.—13,148 bus wheat, 913 do corn, 971 do barley, 380 do oats, 583 do rye, 3589 bbls flour, 96 do highwines, 264 do pork, hams and lard, 89 hogs.

The Railroads were much obstructed during the first of the week, but the receipts of produce for the last three or four days have been quite large and the market very animated at a decided advance in most grains over last week. The demand has been brisk and buyers plenty. The winter holds on remarkably, the ice in our river remaining firm and the snow on the ground wasting away slowly. The Lake, however, is unobstructed and steamboats and sail vessels are making trips all along shore.—The last advices from Mackinac hold out little hopes of vessels getting through the Straits much before May.

Produce is accumulating rapidly at our lake ports, and storage in this city is becoming scarce. Reports from Racine, Sheboygan, Kenosha, &c., with the returns from our city warehouses, warrant the belief that there will be in store, at our Wisconsin ports, on the opening of navigation, not far from One Million Bushels of Wheat and seventy-five thousand barrels of Flour.

The weather continues favorable to the winter grain, and there is every promise of an abundant crop. We hear similar reports from our neighboring States of Michigan and Illinois. Money is rather more abundant and as Spring business increases, bids fair to be plenty again.

All the information we get from the East bids us expect an unusually large emigration into Wisconsin during the current year. Already house room and store room are becoming exceedingly scarce in our city and rents are rising fast.

We learn from the St. Louis *Republican* of the 22nd, that the business season has opened most actively and prosperously there. Prices rule high, and flour is freely purchased for future delivery in the belief that the supply will fall short. City superfine was selling for $7,50, and wheat steadily advancing from day to day. On the 21st, the range from inferior spring to good winter was $1,35@1,85; corn, 64@65c; oats, 42@44; rye, 95; barley, 1,40@1,50; potatoes, 2,00@2,25 ℘ bus; mess pork, 13,00@13,50 ℘ bbl.

We note the leading features in our market:—

Wheat.—Fair receipts during the week and prices have steadily advanced. Considerable sales of Club have been made at $1,35@1,36, and small lots of White Winter, for milling, have sold at $1,53, 1,55 and 1,56. The general range of the market yesterday was $1,31@1,33 common Spring, 1 41@1,45 Red Winter, 1,48@1,55 White do.

Barley—The demand has improved and prices are rather better, with sales at 95@1,00.

Rye—Firm and in steady request, with sales at 88@91.

Oats—Much wanted for home use and taken readily for retail at 37½@40.

Corn—Not much coming in—commands 40@45 quick.

Potatoes—In fair request at 55a65.

Timothy Seed—Steady at $1.

Pork—Receipts very light—good Hogs taken for butchers' use at $4 75@5,00. Mess Pork is held firmly at $13,00 @13 50.

Beef—Good Beef Cattle command $4,25@4,50 on the hoof, and extra lots bring $5.

Flour—Over 3300 bbls have been manufactured at the mills during the week, and nearly 4000 have come in by Railroad. There is no material change in rates since last week. We note a sale of 100 bbls "Rough and Ready" No 1, at $7.

FREIGHTS—We hear that the schooner *Fred. Hill* has been chartered for the first trip to Buffalo at 15c., with wheat, and the *Hagar*, now at the Beavers, for 16c.

THE GOVERNOR'S VETO.—We publish this morning Governor Barstow's Veto of the Prohibitory Liquor Law. It is unfortunate for his own sake that he did not specify the "Constitutional objections" and "other reasons which might be presented" for withholding his assent to this bill, since those which he has given are trivial and inconclusive, and only tend to strengthen the prevalent belief that he was pledged to veto *any* Prohibitory Law.

THE WISCONSIN in announcing the notice of the Veto makes the following remarks to which we invite the special attention of the Temperance men in the Legislature:

"The Assembly, if the members are in earnest, will go forward and pass a thorough Prohibitory law, and this we *have been assured on good authority*, the Governor would sign. We have our doubts whether the Legislature really want to pass such a law. There are too many aspirants for political honors therein, who are afraid of the foreign vote. The Assembly has the power to pass such a law, and the responsibility of a failure to pass a strong law will rest on the republicans. Let them go ahead and fulfil their pledges to temperance men."

By all means give the Governor a chance, which his organ ask for him, to sign "*a thorough Prohibitory Law*." We hope the Legislature will not think of adjourning till they have done so.

LAKE SUPERIOR.—Our readers will find both interest and information in the series of articles upon the Lake Superior Country, contributed for our columns by a gentleman who has been there and knows whereof he writes. We present the second number this morning.

The Saturnalia at the Capitol.

We call the attention of the sober, reflecting and self-respecting people of this State to the scene enacted in the Assembly Chamber on Saturday evening, as by a factious and reckless minority, bent upon preventing legislation and compelling an adjournment, in order that they might celebrate the victory of Liquor! It was a fitting sequel to the Veto of the morning and furnishes a significant illustration of the spirit which actuates too many of the opponents of a Prohibitory Liquor Law.

Abstract of Monday Morning's Proceedings.

Madison, March 26 1855.

Investigating Committee Bill made special order for to-morrow.

The Governor vetoed bill authorizing Janesville Common Council to prohibit sale of liquor. The vote to pass it again was 11 to 9—not two thirds.

Bills passed.

Relating to license moneys in Dane Co.

Prohibiting clerks in land office from entering lands.

Appropriating $2 3 to J N Jones for postage.

Providing for county standards of weights and measures.

Providing for publication of notices ordered published by Judges of Courts.

Providing for protection of Swamp and overflowed lands.

Authorizing J. L. V. Thomas to build dam on Bass Creek.

Charter of Milwaukee Ladies Society.

" " Concert Hall Association.

" " [illegible] Academy.

Amending Janesville Charter (leaving out license section.)

Appropriating to Schoeffler & Wendt, L. Kellogg.

Appropriating to officers of Senate.

The enacting clause of the Rock River Canal Bill was struck out only one in the negative.

ASSEMBLY—Bills passed:

Providing for appraising damages where lands are ceded to the U. S.

Charter of Big Bull's Bridge Co.

Charter of German School, Second Ward, Milwaukee.

Charter of East and Fox River R. R.

Repealing sec. 12 chapter 28 local laws of '54.

Attaching Columbia Co. to 9th Judicial Circuit.

Authorizing a boom on Pensaukee river.

Authorizing Supervisors of Beloit to borrow money.

Amending act amending charter of Geneva.

Vacating a street in Oshkosh.

Providing for certain expenses of Comptrollers office.

Concerning terms of Circuit Court in Winnebago, Fond du Lac and Manitowoc.

Enabling assignees of choses in action to maintain suit.

Appropriation to A. Greulich and K. Fleischer.

The Governor sent in a veto of bill appropriation to R. King & Co., for Supreme Court Reports.

A new Temperance Bill, introduced by Mr. Gary, was made the special order for this afternoon.

Adjourned.

FOURTH AND TENTH JUDICIAL CIRCUITS.—The Sheboygan *Times* announces that Mr. B. Williams of that city, declines the independent nomination for Circuit Judge. The *Times* intimates that Mr. Sharpe may become a candidate for that office. Judge Gorsline, appointed by Gov. Barstow, to fill Judge Howe's vacancy, is also in the field. The election comes off next Tuesday and the electors of the Circuit appear to be in a pleasant state of uncertainty as to whom they shall vote for. As the question now stands the contest seems to be between Mr. Flint, of Fond du Lac, and Mr. Gorsline, of Sheboygan.

In the Tenth Circuit we learn from the Green Bay *Advocate* that Hon. D. Agry and Mr. R. S. Cotton are candidates for the new Judgeship.

Since the above was in type, we learn that Mr. J. M. M. Shafter, of Sheboygan, in compliance with the request of numerous friends, has consented to be a candidate for Judge in the 4th Circuit. Success to him! He would make a Judge.

LAKE SHORE & MANITOWOC & MENASHA R. R.—The Manitowoc *Tribune* publishes the proceedings of the R. R. Convention in that village last week, says that it was well attended, and that a very lively interest was manifested in the objects of the meeting. The *Tribune* adds that a meeting of the Directors of the Manitowoc & Menasha R. R. Company was held in the evening and the President authorized to receive proposals for building the road.

THE HYBRID LIQUOR LAW.—The bill which passed, allowing the Germans to drink their favorite beverages while the other classes are forbidden to drink theirs, the Madison Journal says will be vetoed by the Governor. In that event the Legislature should go forward and pass a thorough Prohibitory Liquor Law—which it is understood the Governor will sign.—*Wisconsin.*

We think the "understanding" decidedly the other way, but certainly hope that the Legislature, before adjourning, will try the Governor with "a thorough Prohibitory Liquor Law."

SALE OF A RAILROAD.—We learn from the Janesville *Free Press* that the Rock River Valley Union Rail Road was sold at Auction in that city, on Saturday last, under a mortgage, for $20,000. The purchasers are Wm. B. Ogden, of Chicago, J. H. Hicks and C. C. Walbane of N. Y., Agents for bondholders. The *Free Press* adds:

Wm. A. Butler sold it as a trustee, by his agent J. W. Hickock the London bondholders having appointed him in the place of Robt. J. Walker. Mr Ogden now gives us reasonable encouragement that the road will now be bona fide commenced. We feel encouraged that it will be so.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, March 24, '55.

In SENATE, this morning:

Petitions:

By Mr Giles, from citizens of Madison, asking for the passage of the Assembly bill in relation to shade trees in the village.

By Mr. Hadley, memorial of Milwaukee Common Council against bill changing grades in 5th Ward. Also, a petition on the same subject.

By Mr Sutherland, to vacate plat of Edgerton.

Resolution:

By Mr Giles, instructing the Judiciary Committee to report the Madison shade-trees bill. *Adopted.*

The Senate, at an early hour adjourned over to Monday.

(Senator Eldridge informs me that in my letter on the 22d, published this morning, I misrepresented his position, in stating that he declined to report from the Judiciary Committee the bill repealing the Lunatic Asylum Law. I was not present in Senate, and had my information from another, whose statement I probably misunderstood. Mr. Eldridge says that he was unwilling to report it before the Committee had had any meeting so that it could be considered, and desired time to prepare a report, and that the bill was reported as soon as the Committee had a meeting—that is the next morning.)

In ASSEMBLY:

Petitions:

By Mr. Whirry, from citizens of Portage City against removal of county seat.

By Mr. Van Nostrand, relative to a State Road from Oshkosh to Stevens Pt.

By Mr. Rose, a memorial from Gen. Starks, State Prison Commissioner, asking that some means to provide whereby he can obtain funds to carry on the institution. Referred to Committee on Ways and Means.

(At this point, the Governor's Private Secretary brought in the Temperance Bill, with a veto Message.)

Resolutions:

By Mr. Harrington, that Mr. Vilas be granted unanimous leave to record his vote on the bill for an Investigating Committee. Amidst a hearty burst of laughter, the "gentleman *from* Dane" said that he did not desire to record his vote, &c., &c. He did not wish to vote for it, and he did not wish to vote against it.

By Mr. Judson, that the Judiciary Committee enquire after some means of compelling delinquent counties to pay up their taxes. Adopted.

Bills introduced:

By Mr Earnest, providing for sale of escheated lands.

By Mr. H. Grant, relating to county seat and buildings in Marquette Co.

Several Reports of Committees were received, and then the Executive Message was taken up.

The Veto states that "besides the constitutional objections," other objections prevent the bill from receiving the Executive signature, *to wit:* that the bill prohibits the *manufacture*, while it allows the *sale* of liquors, (this objection has no foundation in fact); that the bill is not a *sufficient stringent* bill, since it allows the use of native wine, beer, and cider (!); and also that the bill allows of the arrest of drunkards, and their confinement till they inform as to where they obtained the "critter," this being a thing dangerous to individual liberty.

Mr. Bennett, having paired off with Mr. Randall did not vote.

The question—Shall the bill pass, the objections of the Governor to the contrary notwithstanding?—was then put and the following was the vote;

AYES; Abbott, Adams, Allen, Bond, Cary Chase Cole, Colley, Davis, Field, Filer, Gary, Goodrich, Goodall, H Grant, W. Grant, Gunn, Herrington, Isham, Judson, Kirkpatrick, Lee, Love Martin, Merriam, Merrill, Mosher, Parker, Peet, P. H. Smith, A. Taylor, Townsend, Topliff Wakely, Warren, Welch, Whirry, Williston Sholes—39.

NOES; Barns, Blaizer, Boyd, Cross, Delany D Wolf, Downs, Earnest, Ebbets, Falvey, Gibb, Griffin, Hull, Juneau, Lavis, Moscowitz O'Neil, Ribble, Rogan, Rose, Ruan, Schwefel, Sherman, B. Smith, W. R. Taylor, Thompson, Van Nostrand, Vilas, Vliet, White—30.

There not being two thirds in the affirmative, the bill *fails*. The absentees are 6 friends and 7 opponents of the bill.

Mr. Welch introduced a bill to repeal the present license law.

The Senate resolution to appoint a joint Committee to receive any proposition from Mr. Proudfit, was taken up. Mr. Van Nostrand thought that it ought to be acted upon at once, so that if the matter could be arranged amicably before the Legislature adjourns, it may be done, and the minds of the people relieved. Mr. A. Taylor was unwilling to propose any sort of compromise, and moved an indefinite postponement, which was lost, and the resolution was adopted.

The Senate had refused to concur in the amendment of the Assembly to the bill appropriating to E. Stangeland for printing Reports—The Assembly refused to recede, and a conference committee was appointed.

Mr. Rose had unanimous consent to introduce a bill to pay General Starks for certain money that he had advanced to the state.

Mr. Sherman enquired if it was in order to move a reconsideration of the vote on passing the Temperance Bill notwithstanding the Governor's objections.

Mr. Hull insisted that the vote taken was in fact the reconsideration, and the only one.

Mr. Gary asked leave to introduce a bill—a new Temperance Bill.

Mr. Hull objected, and the vote being taken was 39 to 28—not two thirds.

Mr Gary said that his desire was to introduce a bill which obviated the objections of the Governor. Members who objected might find themselves in difficulty in consequence, before the Session was over.

The Assembly then went into Committee of the whole. On rising and disposing of the report of the Committee, Mr. Ebbetts introduced a joint resolution to adjourn the Legislature at 12 M. on Thursday next. Mr. Gary objected. Mr. Parker moved to adjourn. Carried.

In the afternoon, immediately on meeting, Mr. P. H. Smith moved to adjourn. Mr. Rose urged the adjournment. Mr Welch hoped there would *not* be an adjournment, since several gentlemen from Milwaukee, who had been absent for several days, had just returned, and he supposed that they desired to stay and attend to business (!) The vote on adjournment was lost. Then Mr. Parker moved a call of the House. Mr. Hull said that he and some of his friends had business to do, and if they were kept here, there would be a "lively time." And there *was* a lively time, the minority, who were understood to be desirous to make merry over the result of the course of legislation on a great moral question, preventing the suspension of proceedings under the call for some seven hours. It was vastly amusing to see members of the minority, who were responsible for thus keeping the Assembly a whole afternoon and evening from transacting business, getting up occasionally and urging an adjournment so that members might "cool down."—There were a good many good hits made, however in the way of motions, one of which was in quoting Ex-Mayor Kilbourn, a little after 4 P. M. to "*let her go*," in the way of an adjournment. Another motion to adjourn at about 5 P. M., was met by Mr. Parker with the expression of the hope that there was "backbone" enough in the majority to "keep some men here until they were *gaunt*."

Mr. Hull said there was backbone enough on the other side to compel an adjournment, or prevent any legislation.

This thing went on till —— well! thus far I had written at 6 P. M., at which time I supposed that the affair would be over soon, but I did not fully appreciate the merits of the case. At half-past 7 P. M., I renew my notes, not by any means intending to report, but to *sketch* proceedings. The clerk is calling the roll on a motion to suspend proceedings under the call, being about the fortieth motion of the kind, motions to adjourn innumerable being voted down. The minority refuse to vote to suspend proceedings so that the majority cannot get over 34 to 36 votes for it while the rules require a majority of all the members elect. The majority do not feel disposed to let the minority go off chuckling over a victory, and so they refuse to vote to adjourn.

The gallery is crowded with people looking down at the strange scene below, some of the spectators having come up wondering where are the friends who were to come and help them celebrate, around the bonfires heaped up near the corners of the streets.

There is a strong smell of crackers, cheese, dried beef, &c., &c., the "&c" meaning something being poured from bottles, not looking like water, and—I verily believe—not being water at all, "Pop," "Pop," is the constant sound from the corner to my right, and "clink," "clink" go the glasses, and "champ," "champ" go the numerous jaws all over the Hall.

No suspension of proceedings. No adjournment.

1½ P. M. Mr Stevens gives notice that he is about to move another adjournment, and that if it does not pass, he will go at any rate. Two or three members rebuke the threat, and the Assembly in good humor, votes, 15 to 44, *not* to adjourn, and Mr. Stevens in as good humor, reconsiders his determination to leave.

8 P. M. Motion to adjourn lost. Mr. Hull, as many others had done, rises to make a personal explanation, and informs the listening crowd that there is in reality no question before the Assembly but that all this long afternoon has been occupied under a call of the House.

Mr. Martin moves a recess for an hour; lost, 10 to 50.

Mr. Parker "explains" He had come here this afternoon to do the business of the Legislature, and when he found that members of the minority were determined to adjourn the House, he moved a call, and he was ready to stand by his motion.

Mr. Gary "explains" He wishes the people to understand all this. He had several times, in the afternoon, voted to adjourn, as he did not care on a mere punctilio, to keep the House here But as things had now come to a pass where the majority or the minority must yield, he was ready now and hereafter to stand by his Republican friends throughout. It will be remembered that in the morning, he had desired to introduce a new Temperance Bill, but it had been refused. And it would be remembered that during the afternoon, Mr. Hull had intimated that the minority would not yield unless there should be a pledge that no "trap should be sprung upon them," in other words, that no such bill should be introduced. This was the same as saying that that no other business shall be done during the session, and he was not disposed to submit.

Mr. Vilas rose to "explain," but there was a yell outside, and a flashing of light, and a rush of members to the windows, and a crowd of jubilant Anti-Maine Law men marched by. The Speaker's hammer fell rapidly, and by and by the excitement partially subsided, and Mr. Vilas proceeded to urge, in a long speech that the majority was factious, and that all that was necessary to end the trouble was that the majority should yield, and agree to adjourn. They would not do this, but they insisted that the minority should come under the yoke. There was a bare quorum present at the call of the House.

Mr. Parker showed that there were 52 present at the first call, and several came in soon afterwards.

Mr. Gary reminded members that very early in the afternoon Mr. Hull had openly made the threat that the House should adjourn, or else should not legislate. (Mr. Hull—"I acknowledge it") Mr. Gary further said that by taking advantage of the rule, some 20 members of the minority may keep the Assembly from doing business for the rest of the session.

Mr. Hull "explained." The gist of it was that the majority were responsible, because they made the rules. He further said that, as the majority here was so strong that it could carry a Temperance Bill through, and he was afraid that they *could* carry it through, and so "he would *not* vote to suspend the rules, if he sat here till the bells tolled for the worship of the Lord God to-morrow." Probably at sunrise to-morrow the majority would find the minority here, ready to vote.

10 minutes to 9 P. M.—Mr. Thompson rises in considerable agitation, and hopes that nothing which has occurred will injure his Sauk bridge. He moved "a recess of 32½ minutes till the Shanghais go to roost."

Mr. Martin "explained" He said that he had been called from his room by the Sergeant-at-Arms, and on entering, found that there were two parties here, one trying to do business, the other trying to prevent business. He could not understand the propriety of continuing this scene longer, a scene which, in his long legislative experience, he had never witnessed before. Fourteen years ago, upon this very floor, he had been present, when an excitement rose which could not be quelled without bloodshed, and blood *was* shed, and a member was shot upon the floor. He hoped that this matter would end here, and that members would continue to regard each other as friends. He moved to adjourn, but withdrew the motion, at the request of

Mr. Davis, who said that, at his time of life, men do not enter into boy's play. He had acted upon a principle. He had been sent here to do business. It had been intimated by the minority that they would compel the majority to do no business. He thought that the majority ought to rule, and therefore had declined to yield. He would, however, yield at the appeal of Mr. Martin. But, in all probability this scene would be repeated on Monday morning, and he wished the people to know who was responsible for it.

Mr. Sherman said that he was brought up a democrat, and to believe that majorities should rule, and believed so still, and he should vote on that principle if he sat here till the end of the session.

The vote was then taken, and resulted as follows:

Ayes; Burns, Blaizer, Bond, Boyd, Cross, *Davis*, Downs, EARNEST, Ebbetts, Faivey, *Gary*, Gibb, Griffin, Hull, Juneau, Lavis, *Lee*, MARTIN, *Merrill*, O'Neill, Ribble, Rose, Ruan, Schwefel, B. Smith, P. H. Smith, Stevens, W R Taylor, THOMPSON, Van Norstrand, Vilas, *Wakely*, White—33.

Noes; Adams, Allen, Bennett, Cole, Colley, DALANY, Field, Filer, H Grant, Gunn, Harrington, Hollenbeck, Isham, Judson, Kirckpatrick, Love, Merriam, Parker, Pratt, Sherman, A. Taylor, Townsend, Topliff, Warren, Welch, Williston, Sholes—27.

Mr. W. Grant was excused from voting. So enough of the Republican members yielded to give the minority their hard-earned victory and the Assembly at 9¼ P. M. adjourned. Immediately there went up from the gallery a storm of cat-calls, crowings, and other hideous yellings, and the minority went off to "celebrate," remarking as they went: "Tuckered you out! eh!" Well! it is over, and I am through. The reader can make his own comments. It has been by far the most disgraceful scene that I have witnessed, in five sessions. W. H. W.

OUR STATE UNIVERSITY.—The Madison *Patriot* of Saturday last says:

The Public Examination of all the classes will take place on Monday and Tuesday, the 2d and 3d of April. The Junior Exhibition will conclude the present term on the Wednesday evening succeeding. The summer term will open on the fourth Wednesday of April, and close on the fourth Wednesday of July. Tuition fee, $4 per term, in advance.

COALPIT EXPLOSION.

The Particulars of the Explosion at the Midlothian Coal Pits in Virginia.

Baltimore, March, 21.

A dispatch from Richmond gives us the full details of the explosion at the Midlothian Coal Pits in Chesterfield. Thirty-four persons were instantly killed, including twenty-eight negroes and six white men, and twelve negroes and five white persons were so badly burned that but three or four of them can possibly recover.

The pits were considered perfectly safe and free from foul air, but in making a blast an old shaft, sinking, accidently crashed, from which it poured forth a volume of gas that became ignited.

The explosion caused the earth for miles around to wave and rock like a twig in the wind. Over one hundred white miners were fortunately out of the pit at the time. Every effort was made to rescue those that were alive. Dead men were found with the flesh charred to the bones, holding shovels, pick and drills in their hands. The flesh on those still alive is burned to the bones, as if it been wasted. The pits are seven hundred and seventy feet deep.

Abstract of the Report of the State Superintendent of Instruction.

Mr. Wright's second Report has at length made its appearance, in the 10th week of the session the delay not being the fault of the Superintendent, but of the State Printer. It contains a great deal of very interesting information, and we proceed to make as full an abstract of it as we can find space for.

The law organizing the free school system of this State has been in operation nearly 6 years the first apportionment of funds having been made in 1850.

The Superintendent in the first few pages of his Report, points out many difficulties which arise in the Administration of the law, though he thinks that the difficulties are in many cases imaginary, and made by men who love to "keep neighborhood in a broil by picking flaws,"—and he is, doubtless, right. He has forwarded to all the districts the newly compiled school laws, so that there is less danger of trouble hereafter.

The sum apportioned to the schools from the Fund last year was $99,749,52, and 405 towns and cities out of the 421 which reported, received their share: 11 towns did not report, and 5 towns sent defective reports.

The amount apportioned in 1850, was $588 00; 1851, $46 889.96, 1852, $53,703,84; 1853, $57,695,75; 1854, $99 749 52. The amount which each town levies annually by tax for schools must be equal to one-half of the sum received by the fund the previous year, and in many towns it is much more than this.

The Superintendent complains of the defective character of many of the reports sent in by school district officers, and ascribes the fault, in a great measure to the neglect of teachers to keep a proper register. Blank forms for the purpose will be furnished this year.

There are 50 organized counties in the State, and from all except Chippewa, Clark, Douglas, and Trempeleau, returns have been received, La Pointe also makes no reports. Five other counties, unorganized, have made no returns; all of the delinquent counties being new.

Number of districts, 2164; number of parts of districts 1062.

The Superintendent rejoices in the decrease of districts in the larger towns, as showing that they are so consolidating as to be able to provide better accommodations.

Whole number of children between the ages of 4 and 20, 155,125, being an increase of 16,467 over 1853, and the increase of attendance on the schools is 6332.

The per centage of children attending school out of the whole number, increased annually for three years, and since 1851, it has been about 70 per ct., besides those attending private schools.

The average length of time in which school was taught the past year was 5½ months, Kenosha Co. having the highest average 7¾ months. Average time taught by males, 3 2 5 months, by females, 3⅓ months.

Average wages from year to year, and total;

Years	To Males	To Females	Total
1849	$15,22	$6,92	$12,788,27
1850	17,14	9,02	59,741 59
1851	17,15	9 07	96,636 06
1852	17,34	8 50	105,082,18
1853	18,24	9,50	113 768 18
1854	21,10	10,87	163,485,64

Total amount expended in 1854;

Teachers' wages	$163,485 64
School Houses	55 309,38
Libraries	2 040,00
Other purposes	21,281,52
	$242,116,54

Being an increase of $76,982,37 over the previous year.

Number of School houses in the State; Brick, 75, Stone 79, Frame 1952, Log 933—total 2139, valued at $347,542,55.

District Libraries, 830, containing 14,027 volumes.

Present Capital of School Fund, $1,670,258,77 invested at 7 per cent.

The probable amount to be apportioned this year is $144 412 03, or about 93 cts. for each person between 4 and 20 years of age.

The Superintendent dwells at length upon the necessity of a better remuneration for teachers, and a better system of constructing school-houses, the Report furnishing valuable plans and suggestions on the latter subject. Valuable advice is also given to teachers for the more successful prosecution of their duties. Parents, too, are urged to perform *their* duties, without which the labors of the teacher are nearly useless. Union Schools are recommended, wherever practicable.

The Superintendent urges the establishment of the Normal Department of the University, to aid in furnishing good teachers for the state, and as the fund of the University is not at present sufficient, he recommends an appropriation from the school fund income for the purpose.

From the full and interesting tables which accompany the Report, we compile the accompanying table, leaving out many of the less important items. Several notes in regard to important points will be found below the table.

Lake Superior in Numbers---No 2.

BY G. W. P.

Messrs. Editors:

In the first number of these articles, I proposed, after a few remarks upon the neglect of the Wisconsin press, to offer to your readers a feeble description of the topography, geography, and practical resources of that portion of Lake Superior country lying within the boundaries of this State, or which (lying in other States or Territories) nature has made tributary to Wisconsin. Commencing then at the western boundary line of the State, at the head of the Lake I shall not attempt to carry the reader back more than two years, although the earlier history of that country contains many incidents and transactions of more than ordinary interest to the general reader. But as the outline of these sketches embraces only Lake Superior, as it is, I shall not revert to what it was.

Douglas County, as set off from the county of La Pointe by the Legislature of this State in 1854, is bounded on the North by Lake Superior, on the East by the Brule or Burnt Wood River, South by the Northern line of Polk county, and West by the State line and the St. Louis River, which, however, is also the State boundary. Douglas county therefore embraces twenty-one miles of Lake coast, and twenty miles navigable river boundary. The general course of the St. Louis from the Falls is northerly for fourteen miles, then it turns abruptly to the south-east till it reaches the Lake. The mouth of the river is between two long, low, sandy points, and is 1280 feet wide, but immediately within the entry the river expands to very nearly a mile in width, and continues this width for six miles, when it is again contracted by two narrow sandy points to half a mile, and above again immediately expands to a breadth of nearly or quite two miles, and again three miles further up it is narrowed to less than half a mile, and continues thus alternately contracted by jutting points and expanded by retreating bays or bayous, for several miles. After twelve miles, the river is filled with islands until we reach the Falls, where we find it narrowed down to a little less than one-fourth of a mile, which width after leaving the Falls it retains for fifty miles, and it is larger than the Milwaukee river one hundred and twenty miles from its mouth. The St. Louis is navigable for any class of boats or vessels to the Falls, but these present the same impassable barrier to navigation which is found on all the rivers of Lake Superior. These Falls are never (in the St. Louis) abrupt descents for more than a few feet, but rather a succession of cascades and rapids, rushing and foaming along through a narrow gorge in the rock a distance of nine miles. A few canoes have made the descent in very high water, but it cannot be done at the usual stages. The Wisconsin shore of the St. Louis from the falls to the mouth is low, and deeply cut by numerous bayous until within six miles of the mouth. It is densely covered with the prevailing timber which characterizes the entire Lake coast, viz—Spruce, Tamarack, Balsam, a few White and Red or Norway Pines, and the Silver Birch. The soil is a light compost of decayed vegetable matter, rarely more than a few inches thick, overlying a very compact red clay, which varies in thickness from eight to sixty or one hundred feet, indicating what practical farmers call a "cold soil." Farther back, and at distances varying from eight to twelve miles, but mostly parallel to the Lake Shore, the Trap rock has been forced up in a continuous chain, to a height averaging about three hundred feet, (in this State) which extends, with a short gap of six miles, through the entire state, and in fact, the whole length of the Lake, its general course being east and west. This forms the Mineral Range, or as it is technically called "The Range". The soil on this Range, is, in Douglas county, similar to that on the shore, except that the surface soil is deeper, and the clay is not so deep, seldom exceeding three feet before we reach the rock. The same timber is found here that we find on the shore but in different proportions, and with additional varieties. The Pines and Birches are more numerous, while the Maple, Iron-wood, Red Oak Linden, Black Ash, Black and Yellow Birch, and White Cedar are found here in no inconsiderable quantities, and all the trees have a larger growth than those nearer the Lake Shore. I shall have occasion to revert to the Range more particularly hereafter, as one of the important sources of the wealth of Lake Superior; we will return now to the mouth of the St. Louis.

The mouth of the St. Louis is essentially the head of Lake Superior, and practically as yet the head of navigation, there being nothing at present to call boats to Fond du Lac (as the little Indian village at the foot of the Falls is called) except an occasional pleasure excursion. (That the water power there, will one day be improved, I have no doubt, but we are speaking of the present.) The Bay of Superior (the first six miles of the St. Louis is so called) is capable of accommodating all the craft of all the Lakes at once, and is easily accessible, from the width of its entrance. The channel proper in the entrance is 600 feet wide and eleven feet deep on the bar, increasing to 25 feet within, and also expanding to four-fifths of a mile wide inside. The Bay of Superior proper is more than eight miles long, being lengthened by a bayou at each end, but it is only navigable for vessels in that portion of it which I call the River. The Left Hand River empties into the Bay of Superior, about one hundred rods from the mouth of the St. Louis and lies wholly within this State. This river contains sufficient depth of water to float any vessel for eight miles, and its banks are so abrupt that a steamer can lay her guards right on the bank, but it is too narrow for turning, or even for winding. Its course is nearly parallel with that of the St. Louis.

Between these two rivers and along the shore of the Bay of Superior, the bank rises somewhat abruptly to a height of about forty feet, and retains nearly that elevation for several miles back, and on this elevation is situated the village of Superior. As this little village has attracted some attention from nearly all the Northern and Middle States, and is known, and its prospects canvassed in nearly every city in the Union, it may not be improper to mention in these sketches, some of the causes which are calculated to give it importance, and also to give some account of its first settlement and present condition.

For many years sagacious financiers have looked with some anxiety to a time when Lake Superior should be made to perform her part in the carrying trade of nations, and when by her means the Mississippi could be reached at some point higher than the mouth of the noble Ohio, without a long land route. The opening of the Welland Canal was an event which was conducive to increased prosperity in the cities which lie scattered along the shores of the lower chain of lakes, and was also an obstacle removed which had hitherto prevented a direct water communication with the Atlantic seaboard. Previous to this time all produce for any point west of Buffalo must be shipped and re-shipped at least three times, and for any point (from the Atlantic) on the Mississippi, it must be shipped five times. Therefore these far-sighted managers did not rest until they had, almost at the same moment, secured the privilege of using the Welland Canal, by the Reciprocity Treaty, and also a grant of valuable lands for the construction of a Ship Canal around the Saut. Then, and not till then, the Surveyor-General issued his orders for a survey of the lands in Wisconsin, which embrace the mouth of the St. Louis river, and also for a survey of two townships on the range in that vicinity. It has been supposed by the masses of the people, that Lake Superior could only be navigated with safety, during about five months of the year. But it has long been known by those who were interested in knowing, that the Lake itself opens nearly as early, and remains open longer, than Lake Michigan. For several years the crazy barques which have been hauled over into Lake Superior, have been kept running far into December, and generally have commenced running in April. Place good Steamers or Propellers upon her waters and they would commence their trips by the first of April and run till after the New Year. This year there was no ice in sight from the mouth of the St. Louis, on the twentieth of January, and the weather for a month previous had been peculiarly mild and favorable for navigation.

Taking this into consideration, together with the fact, that Superior, in a direct line east, is only seventy miles distant from the Mississippi, and in an air line only one hundred and thirty eight miles from St. Paul, and in either direction, a practicable railroad route, and one will conscientiously predict for the now little village of Superior, a future that may rival that of Milwaukee, or even that of Chicago. Further, when we consider that the railroad route from the Mississippi to Puget Sound, which was surveyed by Gov. Stevens in 1853, is only 1909 miles in length, and consequently, that the Pacific waters are less than 2000 miles from Superior; that this route is seven thousand feet lower in its highest point, than a corresponding point in any other survey, and is supplied along the entire course with the materials necessary in its construction, and for its maintenance, and that in no single place is there a natural obstruction equal to some which were found on the Chicago and Galena road; we are constrained to pause and reflect ere we assert that Superior is destined to flash up and die away, consumed by some larger town either on the Mississippi, or east of Lake Superior.

The Range too, presents an inexhaustible fountain of wealth, in those rich veins of native copper, which have given rise to so many almost fabulous tales, of the natural opulence of Lake Superior. This source of wealth will constantly be increasing, instead of diminishing; for the upper half of the Wisconsin shore, and the entire Minnesota shore, from the St. Louis to Pigeon River, must be dependent upon Superior for a shipping point or for a market, since there is no harbor on the South shore, nearer than La Pointe, and none on the North shore at all. This range which I have before described as running the whole length of the south shore of the Lake, extends also along the North shore from the head to the foot of the Lake, rising grandly from the very water's edge, frequently to a height of 1500 feet, and presenting to the eye, a scene upon which poets love to linger. And it is also richly injected with a metal, more profitable than gold, because not so much diffused, and because more certain of being found.

Veto of the Bill for the Suppression of Intemperance.

EXECUTIVE DEPARTMENT,
MADISON, March 24th, 1855.

To the Assembly:—The Bill entitled "an act for the suppression of intemperance in the State of Wisconsin," is herewith returned to the Assembly, in which it originated, without the Executive approval.

Aside from the Constitutional objections to this bill, there are several provisions contained in it which, in my judgement, are of such a character as to compel my dissent.

The first section of the bill reads as follows:

Section 1. "No person shall be allowed at any time to sell or to manufacture for the purpose of selling by himself or by another person directly or indirectly, any spirituous or intoxicating liquor or liquors, of which any part or ingredients consists of spirituous or intoxicating liquors except as hereinafter provided, and the giving away of intoxicating liquors or other shifts or device to evade the provisions of this act shall be deemed and held to be unlawful selling within the true extent and meaning of the prohibitions contained in this section."

This section prohibits the sale and manufacture of intoxicating liquors except as thereinafter provided. The right to sell for mechanical, chemical and medicinal purposes, is subsequently provided for by authorizing the appointment of one or more agents for that purpose, in each of the several towns, cities and villages throughout the State, but there is no section or clause "providing" for or allowing the manufacture of any liquors for these purposes. If it is proper thus to provide for the sale of spirituous liquors, it is equally proper and necessary that this manufacture should be allowed and even encouraged under like restrictions. By thus providing for the sale of intoxicating liquors, the propriety and necessity of their use are admitted, and being so admitted I can see no good reason why their manufacture should be prohibited. Large quantities of spirituous liquors are annually used in the State for the purposes above named, and I cannot see any propriety in depriving our citizens of the right to manufacture such liquors for such purposes, or in compelling them to go abroad for what they can with profit and advantage manufacture at home.

Section two of this bill provides expressly for the sale, and indirectly for the manufacture of beer, wine and cider, for their sales in limited quantities, and by agents to be appointed expressly for such purpose, (which agents are not allowed to sell other intoxicating liquors;) and in quantities and under restrictions, as follows:

"Section 2. Any person who shall first obtain a permit therefor from the Supervisors of any town, the Trustees of any village, or the Common Council of any city, in this State, and who does not hold at the same time a permit to sell pure and unadulterated liquors; or, as provided in Section 3 of this act, may sell within the limits of the town, village or city, where such first named permit is granted, pure wine, beer and cider, manufactured within this State, under the following restrictions, and not otherwise:

Beer shall not be sold in any quantity less than eight gallons, and wine and cider shall not be sold otherwise than in sealed bottles or packages, and in all cases the entire amount sold shall be taken away by the purchaser in the unbroken package or packages, as purchased; and such wine, beer and cider, shall not be sold in any quantity or quantities, to be drank upon or about the building or premises where sold, or to be drank in any adjoining room, building or premises, or in any place of public resort, connected with said building; provided, that in any case arising under any of the provisions of this act, the presumption of law shall be, that any wine, beer or cider, in question, in the case, was manufactured out of the State, and it shall be incumbent upon the defendant or defendants, in any suit where the selling of intoxicating liquors by him or them is shown, to prove that the article sold was wine, and that the same was pure and manufactured within this State; or beer without admixture of distilled or spirituous liquor, and manufactured within this State; or cider, and that the same was pure and manufactured within this State; and in case of seizure of any wine, beer and cider, as provided in Section ten of this act, the owner or owners, in order to show that same are legally held under the provisions of this section, shall be required to prove that each is pure of its kind and manufactured within this State.

This bill is entitled "an act for the suppression of intemperance," and while it prohibits the sale of certain kinds of intoxicating liquors, except for mechanical, chemical and medicinal purposes, and the manufacture thereof altogether, it expressly provides for and permits the manufacture and sale of certain other kinds of intoxicating liquors, used almost exclusively as a beverage, a too free use of which is calculated to produce and continue the evil sought to be prevented, and in this particular I think it is inconsistent with its purposes and unwise in its discrimination.

If we are to try the experiment of averting the evils of intemperance by prohibitory laws, the sale and use of all intoxicating liquors as a beverage of whatever name or nature should be proscribed, for it will be in vain to think of doing so by inhibiting the use of one kind of intoxicating drink, and allowing either the restricted or unrestricted use of others. This must be regarded as an unwise and unwarrantable compromise between principle and expediency, and one wanting in evidence to convince me that it is desired by those whom it may have been intended to favor, and rendering the measure liable to the suspicion of being the means for attaining other ends than those expressed.

The 14th section of the bill contains a provision for arrest and confinement of any individual ascertained to be intoxicated and for his subsequent imprisonment, should he refuse to "disclose the place, and the person of whom the liquor so producing intoxication was obtained, and all the circumstances attending it," the imprisonment to continue until he shall make such disclosure or until the Justice before whom he has been taken for examination, shall see fit to discharge him. I consider the discretion thus given to the magistrate dangerous to individual liberty, and entirely incompatible with the spirit of our system of government. Opportunity would be afforded for a tyrannical abuse of power, since the exercise of this discretion would, in many instances, be regulated by the caprice, the private animosity, or other unjustifiable motive of the officer on whom it is, by this provision, conferred. Should the prisoner persist in his refusal, and the Justice remain inflexible, the imprisonment may continue for an indefinite period.

Deploring as deeply as the most fervent advocates of a Prohibitory Liquor Law the evils of Intemperance, I must still pay a due regard to the obligations imposed upon me, and withhold my sanction from enactments which, in my deliberate judgment, tend to oppression or injustice; and for the reasons above stated, and others which might be rendered, I feel bound to return the bill in question to the Assembly, without my approval.

WM. A. BARSTOW.

DIED.

In this City, at 9 o'clock yesterday morning, 26th inst., SARAH D. MERRILL, wife of S. S. MERRILL, aged 29 years.

The funeral takes place at the residence of Mr. Merrill, First Ward, on Wednesday next, at 2½ o'clock P. M. Friends of the family are invited to attend.

☞ If the statements we see in many of the papers and the names of many highly respectable physicians and claims of high standing attached to certificates of the good effects of a medicine can be relied on, it seems to us the height of incredulity to doubt for a moment the intrinsic virtues of the "MEXICAN MUSTANG LINIMENT." The fact is admitted by all, that it is the best external remedy ever discovered by the medical faculty; and that it is a certain cure for all kinds of Cutaneous diseases, both on man and beast. We cordially recommend it to any of our readers who are troubled with any of the diseases for which it is recommended.

HOLLOWAY'S OINTMENT.—A Miraculous Cure of Ulcerous Sores.—Augustus Cook, a compositor, in the office of one of the papers, published in Philadelphia, was afflicted for a long time with scrofulous sores on his arms and legs, his case in the end became so desperate, that it appeared evident he must forsake his employment. A friend, however, persuaded him to use Holloway's Ointment, and to take the Pills according to the printed directions, which he did. After a short time, he found himself considerably better and by persevering with these remedies, in a few weeks he was completely cured, and is now able to work with renewed vigor.

IT HAS BEEN RESERVED TO THIS DISTINGUISHED authoress to achieve what may, under the circumstances, be regarded as the most brilliant success ever obtained by an American writer of fiction. "RUTH HALL," her first continuous story, though deriving no interest or popularity from connection with any of those vexed questions which agitate the public mind, has, in the two months since its first appearance, reached a greatly larger sale than any other American work of fiction whatever within the same period. This extraordinary fact is, of itself, abundant evidence of the absorbing interest and graphic power of this remarkable work. We have in our possession several hundred reviews of "RUTH HALL," which have already appeared in the principal newspapers and periodicals. Nearly all of these pronounce it emphatically a work of genius, many predicting for it the largest sale of any American book, and devoting whole columns to its eulogism, while we have seen but a very few (not twelve in all) which deny its singular fascination.
"RUTH HALL" is for sale by Booksellers, generally.

COMMERCIAL.

REVIEW OF THE MARKETS,

FOR THE WEEK ENDING MARCH 27th.

OFFICE OF THE DAILY SENTINEL,
Milwaukee, March 27, 1855.

RECEIVED BY M. & M. RAILROAD, MARCH 26TH —3000 bus wheat, 430 do corn, 346 do oats, 37 do barley, 175 bbls flour, 40 do highwines, 15 do alcohol, 4 hogs.

BY M. & W. RAILROAD —1102 bus wheat, 77 do rye, 71 do barley, 406 bbls flour.

RECEIVED BY RAILROAD DURING THE WEEK.—12,146 bus wheat, 913 do corn, 971 do barley, 396 do oats, 583 do rye, 3589 bbls flour, 96 do highwines, 264 do pork, hams and lard, 89 hogs.

The Railroads were much obstructed during the first of the week, but the receipts of produce for the last three or four days have been quite large and the market very animated at a decided advance in most grains over last week. The demand has been brisk and buyers plenty. The winter holds on remarkably, the ice in our river remaining firm and the snow on the ground wasting away slowly. The Lake, however, is unobstructed and steamboats and sail vessels are making trips all along shore.—The last advices from Mackinac hold out little hopes of vessels getting through the Straits much before May.

Produce is accumulating rapidly at our lake ports, and storage in this city is becoming scarce. Reports from Racine, Sheboygan, Kenosha, &c., with the returns from our city warehouses, warrant the belief that there will be in store, at our Wisconsin ports, on the opening of navigation, not far from One Million Bushels of Wheat and seventy-five thousand barrels of Flour.

The weather continues favorable to the winter grain, and there is every promise of an abundant crop. We hear similar reports from our neighboring States of Michigan and Illinois. Money is rather more abundant and as Spring business increases, bids fair to be plenty again.

All the information we get from the East bids us expect an unusually large emigration into Wisconsin during the current year. Already house room and store room are becoming exceedingly scarce in our city and rents are rising fast.

We learn from the St. Louis *Republican* of the 22nd, that the business season has opened most actively and prosperously there. Prices rule high, and flour is freely purchased for future delivery in the belief that the supply will fall short. City superfine was selling for $7,50, and wheat steadily advancing from day to day. On the 21st, the range from inferior spring to good winter was $1,30@1,85; corn, 54@65c; oats, 42@44; rye, 95; barley, 1,40@1,60; potatoes, 2,00@2,25 ₩ bus; mess pork, $13,00 @13,50 ₩ bbl.

We note the leading features in our market:—

Wheat—Fair receipts during the week and prices have steadily advanced. Considerable sales of Club have been made at $1,35@1,36, and small lots of White Winter, for milling, have sold at $1,53, 1,54 and 1,55. The general range of the market yesterday was $1,31@1,33 common Spring, 1 47@1,45 Red Winter, 1,4-@1,55 White do.

Barley—The demand has improved and prices are rather better, with sales at 95@1,00.

Rye—Firm and in steady request, with sales at 90@91.

Oats—Much wanted for home use and taken readily for retail at 37½@40.

Corn—Not much coming in—commands 49@55 quick.

Potatoes—In fair request at 55a65.

Timothy Seed—Steady at $1.

Pork—Receipts very light—good Hogs taken for butchers' use at $4 75@5,00. Mess Pork is held firmly at $13,00 @13 50.

Beef—Good fat Cattle command $4,25@4,50 on the hoof, and extra lots bring $5.

Flour—Over 3000 bbls have been manufactured at the mills during the week, and nearly 4000 have come in by Railroad. There is no material change in rates since last week. We note a sale of 100 bbls "Rough and Ready" No 1, at $7.

FREIGHTS.—We hear that the schooner *Fred. Hill* has been chartered for the first trip to Buffalo at 18c, with wheat, and the *Hager*, now at the Beavers, for 16c.

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL.

CITY MATTERS.

Horace Mann's Lectures.

The last two Lectures before the Association by Horace Mann, were very well attended, tho' at the first lecture the hall was not as full as we had anticipated owing to the bad walking, and partly, perhaps to the disappointment of the previous evening. We may here say that the disappointment of Thursday night, was not thro' any fault or neglect of Mr. Mann. The cars on the roads leading out of Chicago were so blockaded by the snow storm of the first of last week, that Mr Mann having appointments to lecture every evening in this state and in Illinois, failed in them all, and did not lecture until he arrived here on Friday night.

The lecture of Saturday night, on "Woman," drew a full house and was well received, though we think that Mr Mann makes his lectures too long for his audience.

The next lecture, and the closing one of the course, by James Russell Lowell, would be on Thursday evening, but that there is difficulty in getting the hall for that night, which will probably make it necessary to postpone Mr. Lowell's lecture to about April 10th

The Association have been particularly fortunate in securing Mr. Lowell. This is the first Western lecturing tour he has ever made, and we presume that the duties of his professorship will prevent his lecturing to western audiences again for a long time to come. He has just closed his course of lectures on Poetry before the "Lowell Institute" of Boston and will probably give us one of these lectures. Of these lectures Mrs. Harriet Beecher Stowe wrote to the *National Era* as follows

"One of the principal sensations of Boston this winter has been caused by the course of Lectures on Poetry, delivered by Russell Lowell before the Institute

Such a rush has there been to them, that it has been entirely impossible to accommodate all who sought admission, and Mr. Lowell has repeated them also to equally thronged houses. The course is upon English Poetry, and poets from the earliest times

Every lecture has been a brilliant success—as reported in the daily papers, they are often more truly poetical than the poems he reviews. These lectures so full of thought, research, wit, humor and feeling, are destined to make their mark in our literary history. Yet we trust the author will not forget, in the brilliancy of his success, that it is the poet's work to create, not to analyze.

Let him give more works for future historians to record. The brilliancy of Lowell's wit has dazzled the eyes of many, that they have not till recently appreciated the scope, the deep feeling, the exquisite word-painting, the true appreciation of nature, in his serious pieces. There is a spirit and sprightliness about his most careless sketch, that shows the hand of a master. To those who have delighted in him, merely as a gay and entertaining companion, we would recommend a study of his Vision of Sir Launfal, or Beaver Brook or almost any of the fugitive pieces in his two volumes of Poems, and they will find him rising before them in a new attitude.

Concert at the Female College Hall.

We would call the attention to the programme in another part of this morning's paper, of a Concert to be given by the pupils of Professor Biederman, this evening, at the Female College, Milwaukee Street. Mr Biederman has been teaching vocal music for some time to the young Ladies, and has been very successful; and we can assure our readers that they will be gratified with the performances to-night; while at the same time they will, by their presence, encourage a branch of education too much neglected.

Ladies' and Gentlemen's Fancy & Furnishing Store.

Messrs Jackson & Luxton, from Jeffry's Importing House, Broadway, New York City, have just opened a Ladies' and Gents' Fancy and Furnishing Store in the U S Block, E Water st next to Hurd's Crockery & Glass store. Their stock, one of the largest and best assorted ever brought to the city consists of every description of embroideries, laces, ladies' collars, undersleeves flowers &c. In hosiery every description of silk and cotton hose and socks of all sizes, and varying in price from 6d to $1. Ladies will find in this establishment every article required by the most fastidious taste. The embroideries surpass any ever brought to Milwaukee and are of the most elegant patterns and desirable qualities. The artificial flowers are superior to any we have hitherto seen. In ribbons the stock is extensive and handsome.

Messrs. J & L have adopted an entire new plan and one that must meet the approval of those sustaining fair dealing, every article being marked in plain figures in a conspicuous place with the price asked, from which no abatement will be made. Their store is handsomely fitted up, and in addition to the ordinary attention paid to customers, there will be a department fitted up expressly for the accommodation of ladies, in which all articles of female wearing apparel &c. will be sold, and be attended upon by a female clerk.

Gentlemen are invited to call and examine their extensive assortment of Under Garments, and all kinds of Shirts Collars, &c., from the lowest to the highest prices. The stock of summer Under Garments is unusually inviting. A large stock of Perfumery, Toilet Articles, &c., is offered at low prices. Messrs. J. & L. respectfully invite the public to call and investigate their stock, and see the prices marked plainly in figures—*not in characters* They pledge themselves to fair dealing, and challenge competition.

Free Trade in Liquor.—The friends of Free Trade in Liquor held an enthusiastic meeting at Best's Beer Hall yesterday, to make arrangements for celebrating the Governor's Veto of the Prohibitory Liquor Law and their triumph over the "Temperance Fanatics." The affair, we believe comes off to-day. They kept the cannon going all day yesterday; powder being furnished gratis by the parties most interested in the Veto.

Vessel Ashore.—The brig *Algoma*, owned by Mr. Eldred of this city, went ashore between the piers at the mouth of the river on Saturday night. She has on her deck two passenger cars for the Watertown R R She will probably be got off without much if any damage.

Dyeing and Scouring.—Mr. Chaintron, a very good French Dyer and Scourer, who was unfortunately burnt out at the recent fire on Mason Street, notifies the public through our advertising columns, that he may be found for the present at No 316 Third Street, Second Ward.

Real Estate and Money Brokers.—Messrs. Wendt & Pfeil, whose card may be found in our advertising columns, have opened an office for buying and selling Real Estate and dealing in Money They are gentlemen of means, character and business experience.

☞ We are indebted to Mr. Archibald Wilson, who has just returned from a business trip East, for New York papers in advance of the mail.

☞ We invite attention to the card of Messrs. Jas. Richardson & Co. in our advertising columns. They are favorably situated for doing a large business and will faithfully attend to all matters entrusted to their care.

Closing the Liquor Saloons on Sunday.—We have been requested to call the attention of the Mayor to the closing of all Saloons, in which Liquor is sold, on Sundays. Several of the Saloon keepers in this city favor this proposition, and one of those who has always closed his Saloon on Sundays, informed us that he understood his Honor, the Mayor, had expressed himself in favor of urging upon the Common Council the passage of an ordinance to effect that object.

A Card.

The Sexton of St. Paul's Church desires to return his grateful thanks to the Rector and Congregation, for the liberal donation collected for him at St Paul's on Sunday morning last. This act of their kindness, (unsolicited,) will be remembered with gratitude, and no exertion will be spared in the faithful performance of the duties pertaining to the office.

Milwaukee, March 27.

POLICE COURT.—March 26.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Louis Burr a colored man was examined on a charge of larceny in a dwelling house and committed for trial, the bail was fixed at $500, the defendant was unable to procure it, and was taken back to jail.

Young America as a Police Force.—A number of boys attracted by the quarrel between McGrath and his wife on Saturday, went to the scene of the fight, and undertook to arrest McGrath, for his cruel treatment to his wife. One of the boys named Charles Hill collared the man, and was knocked down, this was too much for the rest to stand quietly, so the whole of them turned in and catching hold of every part of McGrath, pulled him along to near the Walker House, where the Under Sheriff met the *posse* and took the prisoner to jail.

☞ The Harmoneons had a crowded house at Young's Hall, last evening, and the performances, after the confusion caused by the alarm of fire had subsided, went off well. They offer a new and attractive programme for tonight

Choice Furniture.—Messrs. Noyes, Flertzheim & Co., invite attention to their new and choice stock of Household Furniture. Their Sale Room is filled with handsome and serviceable articles.

☞ Country Merchants and Dealers will find something of special interest to them in the advertisement of Messrs. Bradley & Metcalf, who offer rare inducements to purchasers.

Fire.—The alarm of fire last night about half past 8 was occasioned by the burning of a wooden building used as a stable and store house for agricultural implements, owned by Littell & Baker, and situated immediately behind their store on East Water Street. The engines were promptly on the spot and confined the fire to the wooden building in which it originated The loss will not exceed $350. It was probably the work of an incendiary. Nothing but the prompt attendance and efficient exertions of the Fire Department prevented a very serious conflagration.

Handsome Collection.—The rector of St. Pauls Church on Sunday evening, acknowledged the receipts of the collection taken up in the morning for the benefit of the Sexton, amounting to sixty dollars, and returned the thanks of the Sexton for the same.

First Ward School Exhibition.—This Exhibition, at Concert Hall last evening, drew an audience as large as the Hall would hold and did great credit to both Principal and Pupils of our First Ward Public School.

Board of Trade.—The Board of Trade held a meeting Saturday to hear the report of the Committee on Statistics; but as they were not quite ready, further time was given them. The following amendments to the By-Laws, reported by Mr. Alvord, from the Committee appointed at last meeting, were unanimously adopted:

In all cases where questions are submitted to the Board of Arbitrators for adjustment, each party litigating shall be required to pay a sum not less than five dollars for one day's sitting, and five dollars for each succeeding day in which the Board may be engaged in the settlement of such case. All moneys so collected shall be paid into the general treasury of this Board.

Strangers visiting the city shall be entitled to the privilege of the rooms occupied by this Board on being introduced by one of its members, and the Secretary shall be required to furnish a book of registry, in which shall be entered the names of visitors, together with the names of members introducing them, which were unanimously adopted.

Several new members were proposed for admission and the Board adjourned till Saturday evening next.

Fat Cattle "as is Cattle."—We had the pleasure last Thursday afternoon of inspecting a pair of fat cattle, worthy of the adoration of a true epicure.

They were pure Durhams, raised and fattened by Wm. Smith, Esq., of Kenosha County, and took the first premium at the State Fair last fall, Mr S. sold four (of which these two are the lightest) to Messrs. Osborn & Osgood, of this city, for $5,50 per hundred, live weight. This pair were four year old steers, and weighed 4,125 lbs.!—[Racine Advocate.

The Niagara Suspension Bridge.

The first passenger train passed over the Suspension Bridge yesterday.

On Sunday a freight train, consisting of 22 loaded cars, passed over the Bridge, which, with engine and tender, weighed over 400 tons, which weight did not bring the center of the Bridge to a level. This was done to test the capacity of the Bridge.

Yesterday the passenger trains ran regularly across, and the morning express from Rochester, consisting of three passengers cars and one baggage car, drawn by the engine David Upton, and driven by David Upton, master mechanic of the Western Division of the N. Y. C. R. R, passed over the Bridge about 10 o'clock. The cars and engine were litterally covered with passengers; among them were a great number of ladies. On the arrival of the train on the Canada side, the guests were treated to a splendid collation by Mr. Nutter, acting station master of the Great Western Railway. After leaving the passengers bound West, the train backed over the Bridge. On the arrival of the train from the West, it ran directly across to the N. Y. side, where another collation was furnished by George H. Burrows Esq, Superintendent of the Western Division N. Y. C. R. R. The trains running from Buffalo and Rochester, as well as those from the West, will hereafter run directly across the Bridge.—[Buffalo Express, Tuesday.

NATIONAL LOAN FUND
LIFE ASSURANCE SOCIETY,
LONDON.
CAPITAL, - - - $2,500,000.
Guarantee Fund, $100,000, Deposited with the Comptroller of the State of New York.
The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.
The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimate than worldly property.
While the representative of a family lives, (although, through neglect to insure his *property*, he becomes bankrupt,) he supports his family; but at his *death*, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.
If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased
Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their families may be left destitute,
Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure.*
The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

BOUNTY LANDS!!
BOUNTY LANDS!
THE ACT OF CONGRESS, passed March 3d, 1855, gives
160 ACRES OF LAND
To every Officer, Soldier, Musician in the Army, or Seaman, Marine, Clerk or Landsman in the Navy, who served Fourteen Days, or was in any Battle in any War since 1790, or to their widows or minor children—embracing officers and soldiers of
WAYNE'S WAR, BLACK HAWK WAR,
WAR OF 1812, PATRIOT WAR,
AROOSTOOK WAR, FLORIDA WAR,
AND MEXICAN WAR
Also, to Revolutionary soldiers or their widows.
In cases where 160 acres have been received under former acts of Congress, no more can be drawn; but those who have been allowed a Warrant for 40 or 80 acres are now entitled to a Warrant for enough more to make up 160 acres.
The undersigned, being connected with a trusty and experienced agent at Washington, now offers his services to all those who wish to obtain the additional Bounty Land granted them under the new act.

RHODES'
FEVER AND AGUE CURE,
OR,
NATURE'S INFALLIBLE SPECIFIC.
FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Miasmata or Miasms. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.
This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.
The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.
It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.
It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.
It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.
Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from the Ague or Billious attacks in that season of the year which while it is the most sickly, is the most valuable one to them.
One or two bottles will answer for ordinary cases, some may require more
Directions printed in German, French and Spanish, accompany each bottle
Price One Dollar Liberal discounts made to the trade.
Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country

THE DAILY SENTINEL.

CITY MATTERS.

Horace Mann's Lectures.

The last two Lectures before the Association by Horace Mann, were very well attended, tho' at the first lecture the hall was not as full as we had anticipated owing to the bad walking, and partly, perhaps to the disappointment of the previous evening. We may here say that the disappointment of Thursday night, was not thro' any fault or neglect of Mr. Mann. The cars on the roads leading out of Chicago were so blockaded by the snow storm of the first of last week, that Mr Mann having appointments to lecture every evening in this state and in Illinois, failed us the [illegible] all, and did not lecture until he arrived here on Friday night.

The lecture of Saturday night, on "Woman," drew a full house and was well received, though we think that Mr. Mann makes his lectures too long for his audience.

The next lecture, and the closing one of the course, by James Russell Lowell, would be on Thursday evening, but that there is difficulty in getting the hall for that night, which will probably make it necessary to postpone Mr. Lowell's lecture to about April 10th.

The Association have been particularly fortunate in securing Mr. Lowell. This is the first Western lecturing tour he has ever made, and we presume that the duties of his professorship will prevent his lecturing to western audiences again for a long time to come. He has just closed his course of lectures on Poetry before the "Lowell Institute" of Boston and will probably give us one of those lectures. Of these lectures Mrs. Harriet Beecher Stowe wrote to the *National Era* as follows:

"One of the principal sensations of Boston this winter has been caused by the course of Lectures on Poetry, delivered by Russell Lowell before the Institute.

Such a rush has there been to them that it has been entirely impossible to accommodate all who sought admission, and Mr. Lowell has repeated them also to equally thronged houses. The course is upon English Poetry, and poets from the earliest times.

Every lecture has been a brilliant success—and as reported in the daily papers, they are often more truly poetical than the poems he reviews. These lectures so full of thought, reasoning, wit, humor and feeling, are destined to make their mark on our literary history. Yet we trust the author will not forget, in the brilliancy of his success that it is the poet's work to create, not to analyze.

Let him give more works for future historians to record. The brilliancy of Lowell's wit has dazzled the eyes of many, that they have not till recently appreciated the scope, the deep feeling, the exquisite word-painting, the true appreciation of nature, in his serious pieces. There is a spirit and sprightliness also in his most careless sketch, that shows the hand of a master. To those who have delighted in him, merely as a gay and entertaining companion, we would recommend a study of his Vision of Sir Launfal, or Beaver Brook or almost any of the fugitive pieces in his two volumes of Poems, and they will find him rising before them in a new attitude."

Concert at the Female College Hall.

We would call the attention to the programme in another part of this morning's paper, of a Concert to be given by the pupils of Professor Biederman, this evening, at the Female College, Milwaukee Street. Mr Biederman has been teaching vocal music for some time to the young ladies, and has been very successful; and we can assure our readers that they will be gratified with the performances to-night; while at the same time they will, by their presence, encourage a branch of education too much neglected.

Ladies' and Gentlemen's Fancy & Furnishing Store.

Messrs Jackson & Luxton, from Jeffry's Importing House, Broadway, New York City, have just opened a Ladies' and Gents' Fancy and Furnishing Store in the U S Block, E Water st next to Hurd's Crockery & Glass store. Their stock, one of the largest and best assorted ever brought to the city consists of every description of embroideries, laces, ladies' collars, undersleeves flowers &c. In hosiery every description of silk and cotton hose and socks of all sizes, and varying in price from 6d to $1. Ladies will find in this establishment every article required by the most fastidious taste. The embroideries surpass any ever brought to Milwaukee and are of the most elegant patterns and desirable qualities. The artificial flowers are superior to any we have hitherto seen. In ribbons the stock is extensive and handsome.

Messrs J. & L. have adopted an entire new plan and one that must meet the approval of those sustaining fair dealing, every article being marked in plain figures in a conspicuous place with the price asked, from which no abatement will be made. Their store is handsomely fitted up, and in addition to the ordinary attention paid to customers, there will be a department fitted up expressly for the accommodation of ladies, in which all articles of female wearing apparel &c. will be sold, and be attended upon by a female clerk.

Gentlemen are invited to call and examine their extensive assortment of Under Garments, and all kinds of Shirts Collars, &c., from the lowest to the highest prices. The stock of summer Under Garments is unusually inviting. A large stock of Perfumery, Toilet Articles, &c., is offered at low prices. Messrs. J. & L. respectfully invite the public to call and investigate their stock, and see the prices marked plainly in figures—*not in characters*. They pledge themselves to fair dealing, and challenge competition.

Free Trade in Liquor.—The friends of Free Trade in Liquor held an enthusiastic meeting at Best's Beer Hall yesterday, to make arrangements for celebrating the Governor's Veto of the Prohibitory Liquor Law and their triumph over the "Temperance Fanatics." The affair, we believe comes off to-day. They kept the cannon going all day yesterday; powder being furnished *gratis* by the parties most interested in the Veto.

Vessel Ashore.—The brig *Algoma*, owned by Mr. Eldred of this city, went ashore between the piers at the mouth of the river on Saturday night. She has on her deck two passenger cars for the Watertown R R. She will probably be got off without much if any damage.

Dyeing and Scouring.—Mr. Chaintron, a very good French Dyer and Scourer, who was unfortunately burnt out at the recent fire on Mason Street, notifies the public through our advertising columns, that he may be found for the present at No. 316 Third Street, Second Ward.

Real Estate and Money Brokers.—Messrs. Wendt & Pfeil, whose card may be found in our advertising columns, have opened an office for buying and selling Real Estate and dealing in Money. They are gentlemen of means, character and business experience.

☞ We are indebted to Mr. Archibald Wilson, who has just returned from a business trip East, for New York papers in advance of the mail.

☞ We invite attention to the card of Messrs. Jas. Richardson & Co. in our advertising columns. They are favorably situated for doing a large business and will faithfully attend to all matters entrusted to their care.

Closing the Liquor Saloons on Sunday.—We have been requested to call the attention of the Mayor to the closing of all Saloons, in which Liquor is sold, on Sundays. Several of the Saloon keepers in this city favor the proposition, and one of them who has always closed his Saloon on Sundays, informed us that he understood his Honor, the Mayor, had expressed himself in favor of urging upon the Common Council the passage of an ordinance to effect that object.

A Card.

The Sexton of St. Paul's Church desires to return his grateful thanks to the Rector and Congregation, for the liberal donation collected for him at St. Paul's on Sunday morning last. This act of their kindness, (unsolicited,) will be remembered with gratitude, and no exertion will be spared in the faithful performance of the duties pertaining to the office.

Milwaukee, March 27,

POLICE COURT.—March 26.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Louis Burr a colored man was examined on a charge of larceny in a dwelling house and committed for trial, the bail was fixed at $500, the defendant was unable to procure it, and was taken back to jail.

Young America as a Police Force.—A number of boys attracted by the quarrel between McGrath and his wife on Saturday, went to the scene of the fight, and undertook to arrest McGrath, for his cruel treatment to his wife. One of the boys named Charles Hill collared the man, and was knocked down, this was too much for the rest to stand quietly, so the whole of them turned in and catching hold of every part of McGrath, pulled him along to near the Walker House, where the Under Sheriff met the *posse* and took the prisoner to jail.

☞ The Harmoneons had a crowded house at Young's Hall, last evening, and the performances, after the confusion caused by the alarm of fire had subsided, went off well. They offer a new and attractive programme for to-night.

Choice Furniture.—Messrs. Noyes, Fleetz man & Co., invite attention to their new and choice stock of Household Furniture. Their Sale Room is filled with handsome and serviceable articles.

☞ Country Merchants and Dealers will find something of special interest to them in the advertisement of Messrs. Bradley & Metcalf, who offer rare inducements to purchasers.

Fire.—The alarm of fire last night about half past 8 was occasioned by the burning of a wooden building used as a stable and store house for agricultural implements, owned by Littell & Baker, and situated immediately behind their store on East Water Street. The engines were promptly on the spot and confined the fire to the wooden building in which it originated. The loss will not exceed $350. It was probably the work of an incendiary. Nothing but the prompt attendance and efficient exertions of the Fire Department prevented a very serious conflagration.

Handsome Collection.—The rector of St. Pauls Church on Sunday evening, acknowledged the receipts of the collection taken up in the morning for the benefit of the Sexton, amounting to sixty dollars, and returned the thanks of the Sexton for the same.

First Ward School Exhibition.—This Exhibition, at Concert Hall last evening, drew an audience as large as the Hall would hold and did great credit to both Principal and Pupils of our First Ward Public School.

Board of Trade.—The Board of Trade held a meeting Saturday to hear the report of the Committee on Statistics; but as they were not quite ready, further time was given them. The following amendments to the By-Laws, reported by Mr. Alvord, from the Committee appointed at last meeting, were unanimously adopted:

In all cases where questions are submitted to the Board of Arbitrators for adjustment, each party litigating shall be required to pay a sum not less than five dollars for one day's sitting, and five dollars for each succeeding day in which the Board may be engaged in the settlement of such case. All moneys so collected shall be paid into the general treasury of this Board.

Strangers visiting the city shall be entitled to the privilege of the rooms occupied by this Board on being introduced by one of its members, and the Secretary shall be required to furnish a book of registry, in which shall be entered the names of visitors, together with the names of members introducing them, which were unanimously adopted.

Several new members were proposed for admission and the Board adjourned till Saturday evening next.

Fat Cattle "as is Cattle."—We had the pleasure last Thursday afternoon of inspecting a pair of fat cattle, worthy of the adoration of a true epicure.

They were pure Durhams, raised and fattened by Wm. Smith, Esq., of Kenosha County, and took the first premium at the State Fair last fall, Mr S. sold four (of which these two are the lightest) to Messrs. Osborn & Osgood, of this city, for $5,50 per hundred, live weight. This pair were four year old steers, and weighed 4,125 lbs.—[Racine Advocate.

AMERICAN Transportation Company.

CAPITAL, $900,000.

Incorporated under the Laws of the State of N. Y.

The Merchants' Transportation Company. The Clinton Line. The New York and Cincinnati Line. The American Transportation Company. The Western States Line. The New York and Western Line. The Western Lake Boat Line. The Troy and Erie Line.

THE ABOVE NAMED LINES have sold their property to this Company, which will be prepared, on the opening of navigation, to offer the facilities of the united interest of those Lines for the purpose of transporting property, either East or West.

The Company has abundant means, both in steam propellers and boats, to give any property intrusted to them the greatest dispatch, and it shall be their care to transport all property safely and in good order.

The President and Directors, believing that their present organization will enable them to do the business intrusted to them as cheap and fully equal, if not better than it has heretofore been done, solicit from the customers of the before mentioned lines a continuance of their patronage.

RUFUS C. PALMER, President.
Hiram Niles, Vice President.
Wells D. Walbridge, Secretary.
John R. Wheeler, Treasurer.

DIRECTORS.

Hiram Niles,	Rufus C. Palmer,	N. Chamberlin,

James C. Evans,	Franklin Lee,	Ansel R. Cobb,
Horatio N. Holt,	A. H. White,	M. M. Caleb,
	William H. Abell.	

This Company have organized a Line of Propellers to run direct to Milwaukee, thereby

Making Milwaukee its Terminus.

Also appointed an accredited Agent at Milwaukee, to settle all damages on goods, for lost goods, &c., &c., thereby saving to merchants the great annoyance always heretofore experienced by them in settling these matters with single individual Lines.

The Company's Propellers will land at the dock of Wm. BROWN & CO.

For Freight Contracts apply at the following Offices:

The Niagara Suspension Bridge.

The first passenger train passed over the Suspension Bridge yesterday.

On Sunday a freight train, consisting of 23 loaded cars, passed over the Bridge, which, with engine and tender, weighed over 400 tons, which weight did not bring the center of the Bridge to a level. This was done to test the capacity of the Bridge.

Yesterday the passenger trains ran regularly across, and the morning express from Rochester, consisting of three passengers cars and one baggage car, drawn by the engine David Upton, and driven by David Upton, master mechanic of the Western Division of the N. Y. C. R. R., passed over the Bridge about 10 o'clock. The cars and engine were litterally covered with passengers; among them were a great number of ladies. On the arrival of the train on the Canada side, the guests were treated to a splendid collation by Mr. Nutter, acting station master of the Great Western Railway. After leaving the passengers bound West, the train backed over the Bridge. On the arrival of the train from the West, it ran directly across to the N. Y. side, where another collation was furnished by George H. Burrows Esq., Superintendent of the Western Division N. Y. C. R. R. The trains running from Buffalo and Rochester, as well as those from the West, will hereafter run directly across the Bridge.—[Buffalo Express, Tuesday.

NATIONAL LOAN FUND LIFE ASSURANCE SOCIETY, LONDON.

CAPITAL, - - - $2,500,000,
Guarantee Fund, $100,000, *Deposited with the Comptroller of the State of New York.*

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of Insurance can have. Human existence must on consideration, enjoy a much higher estima than worldly property.

While the representative of a family lives, (although, through neglect to insure his *property*, he becomes bankrupt,) he supports his family; but at his *death*, die also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the *premium* is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure.*

The farmer who has still a mortgage on his farm, *should insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

BOUNTY LANDS!! BOUNTY LANDS!

THE ACT OF CONGRESS, passed March 3d, 1855, gives

160 ACRES OF LAND

To every Officer, Soldier, Musician in the Army, or Seaman, Marine, Clerk or Landsman in the Navy, who served Fourteen Days, or was in any Battle in any War since 1790, or to their widows or minor children—embracing officers and soldiers of

WAYNE'S WAR,	BLACK HAWK WAR,
WAR OF 1812,	PATRIOT WAR,
AROOSTOOK WAR,	FLORIDA WAR,
AND MEXICAN WAR	

Also, to Revolutionary soldiers or their widows.

In cases where 160 acres have been received under former acts of Congress, no more can be drawn; but those who have been allowed a Warrant for 40 or 80 acres are now entitled to a Warrant for enough more to make up 160 acres.

The undersigned, being connected with a trusty and experienced agent at Washington, now offers his services to all those who wish to obtain the additional Bounty Land granted them under the new act.

RHODES' FEVER AND AGUE CURE, OR, NATURE'S INFALLIBLE SPECIFIC.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Miasmata or Miasma. This subtle atmospheric poison, which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the only SURE DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease other still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from the scourge. Bill the attacks until the season of the year which while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

HERRING'S PATENT FIRE-PROOF SAFES.

THE SUBSCRIBER CONTINUES TO MANUFACTURE his unrivalled Patent Fire and Burglar Proof Safes, warranted equal to any and superior to some, of the many which have been tested, as published and noticed by the press throughout the world for the last fifteen years, and is sole proprietor of Hall's Patent Powder Proof Lock, both having received separate medals at the World's Fair, London, 1851, and New York, 1853-4; also the patentee (by purchase) of Jones' celebrated Patent Combination and Permutation Bank Lock. $1000 in gold was placed in the safe exhibited at the World's Fair, London, secured by Hall's and Jones' Lock, and offered as a reward to any one who would pick the locks or open the safe within forty-two days; and although operated on by several skilful in the art of lock picking, no one succeeded in opening the safe (no change or alteration of the key ... made during the time,) but the money remained in the safe deposit, and was restored to its proprietor, and a medal awarded for the champion safe of the world. Caution—None genuine except those having the subscriber's name on a metal plate.

SILAS C. HERRING, Green Block, Corner Pine & Water Sts., New York.

N. B.—The above Safes and Locks can be had (adding freight) at manufacturer's prices, of his authorized agents, in the principal cities of the United States and Canada. feb12 3mos C&O

USE THE

Magic Impression Paper!

For Writing without Pen or Ink, Copying Leaves, Plants, Flowers, Pictures, Patterns for Embroideries, Marking Linen Indelibly, and

MANIFOLD WRITING.

THIS ARTICLE IS ABSOLUTELY THE BEST FOR portable Inkstand in the known world, for a small quantity folded and placed in the pocket constitutes a travelling inkstand which cannot be broken. No pen is needed, for any stick sharpened to a point, writes equally as well as the best gold pen in the universe. For drawing it is indispensable. It is, indeed, the whole art of Drawing and Painting—taught in one lesson. Any leaf, plant or flower can be transferred to the pages of an album with a minute and distinct resemblance of nature. With equal facility, pictures and embroidery patterns are taken, and have received the highest eulogiums from the fair sex; and, indeed, a more tasteful present for a lady could not be produced.

This Magic Paper will also mark Linen, or other articles, so as to remain perfectly indelible. All the washing in the world fails to bring it out. Any child can use it with perfect ease. With this Magic Paper, likewise, one or four copies of every letter written can be secured without any additional labor whatever, making it the cheapest article extant. It is used to great advantage by reporters of the public press, telegraphic operators and hosts of others.

Each package contains four different colors—Black, Blue, Green, and Red, with full and printed instructions, for all to use, and will last sufficiently long to obtain Five Hundred distinct impressions.

It is put up in beautifully enamelled, colored envelopes, with a truthful likeness of the Proprietor attached. Each and every package warranted.

Price—$2 a Dozen, or, Five for One Dollar. Single Packages, 25 Cents. Address, post-paid,

N. HUBBELL, 167 Broadway, N. Y.

PATENT MEDICINES.

AYER'S

CHERRY PECTORAL,

or the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following, and refer further enquiry to my American Almanac, which the Agents below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, '53.

DR. J. C. AYER. Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your CHERRY PECTORAL, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by 10 o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it is the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,
J. D. POWELL, Supt. Trans., L. R. R.

Rocky Hill, Somerset Co., N. J., July 21, 1852

DR. J. C. AYER:—Since your medicine has become known here it is in greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the least they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me
Yours, with respect, JOHN C. WHITLOCK.

P. S.—Almost any number of certificates can be sent you if you wish it.

Windsor, C. W., June 26, 1856

DR. J. C. AYER—Sir: This may certify that I have used your CHERRY PECTORAL for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,
D. A. McCLURE, Attorney at Law.

Wilkesbarre, Pa., Sept. 25, 1850.

DR. J. C. AYER.—My dear sir:—Your medicine is much approved by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,

CHAS. STREATER, M. D.

MEXICAN MUSTANG LINIMENT

THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence.

The People Themselves

have long since adopted it as the only external remedy they could rely upon, and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.

It is extensively used by the Ladies,
It is used by Mechanics and Laboring men,
It is used in families and factories,
It is used expressly by all Express Companies,
It is used by Farmers and Livery stable keepers,
It is used by everybody, and all sing in its praise,
Where it is used, pain cannot exist,
The benumbed limbs are made elastic,
The deep ulcers and frightful sores are healed,
The mustang nerves are made to vibrate with joy!

Use the Mustang Liniment.

is the spontaneous advice of all.

It has cured more cases of

Rheumatism

than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint, but appears to give vigor and elasticity to the limbs, before unknown—thus performing a double office.

For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and inflammations, it is unrivaled in the power and efficacy of its operation.

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure.

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,

can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthermost. Persons afflicted with these diseases, should be careful in getting the right article to cure them.

Use it upon Your Horses,

for spavin, splint, ring-bone, fistula, wind galls, big-heads, bruises, strains, string halt, scratches, cracked heels, swiney, saddle, collar, or harness galls, hard lumps or tumors, film or other diseases of the eye, poll evil, &c.

The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,

totally discarding any other preparations of the kind, and have all given their certificate in its favor.

This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial.

THERE is no Druggist or Country Store keeper
Who pretends to keep medicine at all,
But what keeps a constant supply of the
Mexican Mustang Liniment.
The small size retail for 25 cents per bottle,
The medium sized retail for 50 cents per bottle,
The large sized retail for one dollar per bottle.
The medium hold three times as much as the small
The large holds nearly three times as much as the medium,
Therefore the largest bottles are the cheapest.

PATENT MEDICINES.

A CURE FOR ALL!!

HOLLOWAY'S OINTMENT.

Citizens of the Union.—

You have done me the honor with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short period. THOMAS HOLLOWAY,

80, Corner of Ann and Nassau Streets, New York

CURE OF SORE LEGS, AFTER 8 YEARS STANDING

Mr. W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sores that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured, but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.

Nov 9th, 1853. (Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Contracted and	Lumbago	Sore-throat
Bad Breasts	Stiff Joints	Piles	Skin-diseases
Burns	Fistulas	Rheumatism	Scurvy
Bunions	Gout	Salt Rheum	Sore heads
Chilblains	Glandular-	Scalds	Ulcers
Chapped hands	swellings	Sore nipples	Wounds.

_ Sold at the establishment of Professor HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents, and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

S. JOHNSON, Jr., Wholesale Agent for Holloway's medicines, for the State of Wisconsin, 151 East water st., Milwaukee. lly8d&w

In Randolph, Columbia county, on the 25th ult., LAURA, only daughter of Lydia H. and the late Joseph Kerr, aged 12 years.

HIGHLY IMPORTANT ANNOUNCEMENT.

To the Afflicted Everywhere,

DR. A. L. ADAMS' LIVER BALSAM COMES GREETING!

DR. A. L. ADAMS' NEW CURE FOR DISEASE, is awakening the inquiry in the minds of all who read it. How is it that Americans have been so long and so faithfully immured in darkness and ignorance on the subject of disease.

DR. A. L. ADAMS' LIVER BALSAM. The great Panacea of Disease is offered to the ... of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Coughs, Consumption, Asthma, Jaundice, Bowel Complaints, Diarrhoea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.

Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered! (being purely vegetable) for the permanent cure of the above disease. The most skeptical have become its most sanguine votaries, and pronounce the Liver Balsam to be the only reliable harbinger of health to the afflicted everywhere.

Testimonials come up from every track it has made, swollen with expressions of gratitude for the relief received by its use. And, in submitting this, the Liver Balsam is recommended to those suffering under the iron grasp of the monster disease, and at once procure one bottle of Dr. A. L. Adams' Liver Balsam.

The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear epitome of the causes and cure of disease; also, of certificates of those who have tested its unparalleled ascendency over the diseases to which we are all subject.

G. E. Scott, General Agent, No. 67 Randolph-st., Chicago, Ill., to whom all orders must be addressed to receive prompt attention. Sold by

mr4 A. F. CLARK, Agent.

[illegible] on hand a good assortment of the
AMERICAN ACTION PIANO FORTES,
[illegible] of Boston, Mass [illegible] Action Piano Fortes is distinguished [illegible] sweetness of tone, [illegible] The Improve[illegible] derangement, [illegible] Numerous medals, [illegible] from various [illegible] in different parts of the [illegible] World's Fair at London, and flattering [illegible] Boston and [illegible] the following:

[illegible] L. M. GOTTSCHALK, to Mr [illegible] New York.

New York, Dec 5, 1853

[illegible]—Having had the pleasure of performing upon [illegible] American Action Piano at the World's Fair [illegible] and other of his Pianos [illegible] much gratification, [illegible] the public. I am very [illegible] improvement in the action. These instruments [illegible] no doubt, to [illegible] the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the [illegible] Pianist, WILLIAM MASON.

Mr. [illegible] having repeatedly played upon the Piano Forte [illegible] with the American Action [illegible] that the certainty and elasticity [illegible] power, purity and equality of tone, I have never [illegible] surpassed in the square Piano Forte.
WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these Instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.
☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

USE THE
Magic Impression Paper!
For Writing without Pen or Ink, Copying Leaves, Plants, Flowers, Pictures, Patterns for Embroidery, Marking Linen Indelibly, and
MANIFOLD WRITING.
THIS ARTICLE IS ABSOLUTELY THE BEST FOR portable Inkstand in the known world, for a small quantity folded and placed in the pocket constitutes a travelling Inkstand which cannot be broken. No pen is needed, for any stick sharpened to a point, writes equally as well as the best gold pen in the universe. For drawing it is indispensable. It is, indeed, the whole art of Drawing and Painting—taught in one lesson. Any leaf, plant or flower can be transferred to the pages of an album with a minute and distinct resemblance of nature. With equal facility, pictures and embroidery patterns are taken, and have received the highest eulogiums from the fair sex; and indeed, a more tasteful present for a lady could not be produced.
This Magic Paper will also mark Linen, or other articles so as to remain perfectly indelible. All the washing in the world fails to bring it out. Any CHILD can use it with perfect ease. With this Magic Paper, likewise, one or FOUR copies of every letter written can be secured without any additional labor whatever, making it the cheapest article extant. It is used to great advantage by reporters of the public press, telegraphic operators and hosts of others.
Each package contains four different colors—Black, Blue, Green, and Red, with full and printed instructions, for all to use, and will last sufficiently long to obtain five Hundred distinct Impressions.
It is put up in beautifully enamelled, colored envelopes, with a truthful likeness of the Proprietor attached. Each and every package warranted.
Price—$2 a Dozen, or, Five for One Dollar. Single Packages, 25 Cents. Address, post-paid,
N. HUBBELL, 167 Broadway, N. Y.

OPINIONS OF THE PRESS.

"HUBBELL'S MAGIC IMPRESSION PAPER.—We refer our readers to the advertisement in another column, setting forth the merits of this pleasing and ingenious invention. The cheapness should induce all to give it a fair trial."—*Philadelphia Merchant.*

"It is unsurpassed for neatness and utility, and should meet with the sale it richly deserves."—*Tribune.*

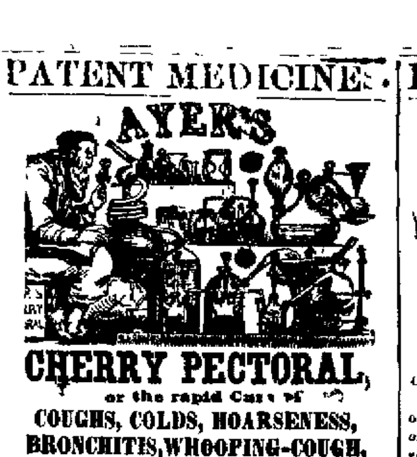
PATENT MEDICINES.



AYER'S
CHERRY PECTORAL,
or the rapid Cure of
COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.

AMONG the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyments, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following, and refer further enquiry to my American Almanac, which the Agents below named, will always be pleased to furnish free, wherein are all particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, '53.

DR. J. C. AYER. Dear Sir,—My little son, four years old, has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your CHERRY PECTORAL, in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by 10 o'clock at night, I found a decided change for the better, and after three days use, he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it is the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect
J. D. POWELL, Supt. Trans., L. R. R.

Rocky Hill, Somerset Co., N. J., July 21, 1852

DR. J. C. AYER:—Since your medicine has become known here it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me
Yours, with respect, JOHN C. WHITLOCK.

P. S.—Almost any number of certificates can be sent you if you wish it.

Windsor, C. W., June 26, 1856

DR. J. C. AYER—Sir: This may certify that I have used your CHERRY PECTORAL for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,
D. A. McCLURE, Attorney at Law.

Wilkesbarre, Pa., April 26, 1850

DR. J. C. AYER.—My dear sir,—Your medicine is much approved by those who have used it here, and its composition is such as to insure and maintain its reputation. I invariably recommend it for pulmonary affections, as do many of our principal physicians. I am your friend,
CHAS. STREATER, M. D.

MEXICAN MUSTANG LINIMENT
THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence.

The People Themselves
have long since adopted it as the only external remedy they could rely upon, and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.
It is extensively used by the Ladies,
It is used by Mechanics and Laboring men,
It is used in families and factories,
It is used expressly by all Express Companies,
It is used by Farmers and Livery stable keepers,
It is used by everybody, and all join in its praise,
Where it is used, pain cannot exist,
The benumbed limbs are made elastic,
The deep ulcers and frightful sores are healed,
The unstrung nerves are made to vibrate with joy.

Use the Mustang Liniment.
is the spontaneous advice of all.
It has cured more cases of

Rheumatism
than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint, but appears to give vigor and elasticity to the limbs, before unknown—thus performing a double office.

For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and inflamations, it is unrivaled in the power and efficacy of its operation.

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure.

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,
can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthest. Persons afflicted with these diseases, should be careful in getting the right article to cure them.

Use it upon Your Horses,
for spavin, splint, ring-bone, fistula, wind galls, big-heads, bruises, strains, string halt, scratches, cracked heels, sweeney, saddle, collar, or harness galls, hard lumps or tumors film or other diseases of the eye, poll evil, &c.

The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,
totally discarding any other preparations of the kind, and have all given their certificate in its favor.

This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial.

THERE is no Druggist or Country Store keeper
Who pretends to keep medicine at all,
But what keeps a constant supply of the
Mexican Mustang Liniment.
The small size retail for 25 cents per bottle,
The medium sized retail for 50 cents per bottle,
The large sized retail for one dollar per bottle.
The medium hold three times as much as the small
The large holds nearly three times as much as the medium,
Therefore the largest bottles are the cheapest.

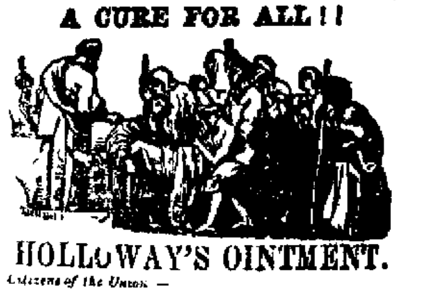
PATENT MEDICINES.

A CURE FOR ALL!!



HOLLOWAY'S OINTMENT.
Citizens of the Union.—
You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short period. THOMAS HOLLOWAY,
80, *Corner of Ann and Nassau Streets, New York.*

CURE OF SORE LEGS, AFTER 9 YEARS STANDING
Mr. W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured, but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.
Mr. R. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.
Nov 9th, 1853 (Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Contracted and	Lumbago	Sore-throat
Bad Breasts	Stiff Joints	Piles	Skin-diseases
Burns	Fistulas	Rheumatism	Scurvy
Bunions	Gout	Salt Rheum	Sore heads
Chilblains	Glandular-	Scalds	Ulcers
Chapped hands	swellings	Sore nipples	Wounds.

*** Sold at the establishment of Professor HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents, and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

S. JOHNSON, Jr., Wholesale Agent for Holloway's medicines, for the State of Wisconsin, 151 East water st., Milwaukee. jly26d&w

In Randolph, Columbia county, on the 25th ult., LAURA, only daughter of Lydia H. and the late Joseph Kerr, aged 12 years.

At Juneau, on the latinst., from an injury received by being thrown from a cutter, Mr. JOHN ACKERMAN, late of Beaver Dam.

HIGHLY IMPORTANT ANNOUNCEMENT.

To the Afflicted Everywhere,
DR. A. L. ADAMS' LIVER BALSAM
COMES GREETING!
DR. A. L. ADAMS' NEW CURE FOR MALADIES is awakening the inquiry in the minds of all who read it. How is it that Americans have been so long and so lavishly immured in darkness and ignorance on the subject of disease.
DR. A. L. ADAMS' LIVER BALSAM.
The great Panacea of Disease is offered to the [illegible] of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Coughs, Consumption, Asthma, Jaundice, Bowel Complaints, Diarrhoea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.
Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered! (being purely vegetable) for the permanent cure of the above disease. The most skeptical have become its most sanguine votaries, and pronounce the Liver Balsam to be the truly reliable harbinger of health to the afflicted everywhere.
Testimonials come up from every track it has made, swollen with expressions of gratitude for the relief received by its use. And, in submitting this, the Liver Balsam is recommended to those suffering under the iron grasp of the monster disease, and at once procure one bottle of Dr. A. L. Adams' Liver Balsam.
The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear epitome of the causes and cure of disease; also, of certificates of those who have tested its unparalleled ascendancy over the disease to which we are all subject.
G. E. Scott, General Agent, No. 67 Randolph-st., Chicago, Ill., to whom all orders must be addressed to receive prompt attention. Sold by
mr4 A. F. CLARK, Agent.
